

Gel battery storage project financing options in France 2026

Overview

Financing for the project has been secured through a consortium including ABN AMRO, NORD/LB, and Caisse d'Epargne CEPAC, with Tesla on board as the EPC contractor and route-to-market service provider. How does France support the battery industry?

Strong financial support for industrialization on the battery value chain To support projects in the battery industry, France has decided to create a new tax credit covering 25% of investment expenditure for large companies and up to 45% for small companies capped at €200 million per company.

Where will Alpiq invest in battery energy storage?

Alpiq is planning further acquisitions of battery storage projects in France, Switzerland, Germany, and the Nordics. “The investment in this battery energy storage system in France signals a clear commitment from Alpiq.

How can Bpifrance support innovation in batteries?

Bpifrance has launched a call for projects to encourage and support research and innovation in batteries in line with its ambition to support entrepreneurs towards a more sustainable development. Transition towards clean energies also brings innovations in energy storage, including in batteries.

Will Alpiq buy a 30 MW battery energy storage project?

In June, the company also announced the acquisition of a 30 MW battery energy storage project in Valkeakoski in southern Finland, which is scheduled to commence operation in the summer of 2025. Alpiq is planning further acquisitions of battery storage projects in France, Switzerland, Germany, and the Nordics.

Is battery storage a good investment?

Battery storage has less of a track record than other renewable energy assets such as solar and wind power. The lack of comfort on the part of lenders has

meant that the project financing packages available have been generally unappealing, with low gearing and onerous covenants.

What is France doing to attract a Gigafactory investment?

This ambitious strategy has enabled France to attract investment for six gigafactories: ACC, Envision, Verkor, Prologium, Tiamat and Blue Solutions. Today, France's efforts are focused on attracting projects covering the entire battery value chain in order to establish a comprehensive national offering.

Gel battery storage project financing options in France 2026

Invest in INNOVATION

This project represents 50% of the battery energy storage capacity allocated under RTE Réseau de Transport d'Electricité's «AOLT» long-term call for tenders for new carbon-free energy ...

Financing Strategies for Battery Energy Storage Projects

This webinar is ideal for anyone involved in the implementation of battery energy storage projects at their facilities and will provide valuable insights and strategies for successful deal design

[£220m funding secured for Eccles 400MW battery storage](#)

Zenob? secures £220m in funding for Eccles 400MW BESS, marking one of Europe's largest battery financings and supporting the UK's green energy goals.

Scatec Secures Financing for 1.1GW Solar and Battery Storage Project ...

Scatec plans to reach the commercial operational date for the Obelisk solar project in H1 2026. The project will happen over two

exciting phases. The initial phase will ...

[TagEnergy launches construction of France's largest ...](#)

TAGENERGY, a global leader in low-carbon energy solutions, launches construction of France's largest battery energy storage platform (France, Marne). This landmark project marks the start of an ambitious ...

Battery storage tax credit opportunities and development challenges

Revised February 13, 2023 Below are slides the authors prepared about tax credit opportunities and development challenges for battery storage. Tax benefits available ...

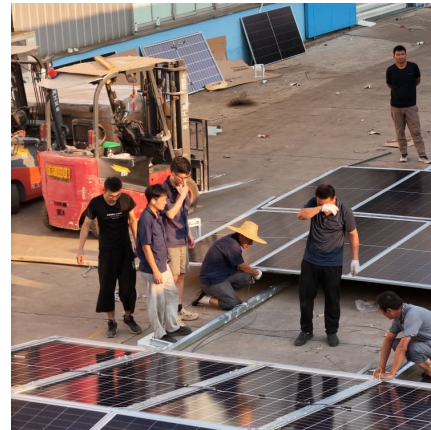

The evolving energy storage market

The energy storage market is still in its infancy, but it is evolving rapidly. Portfolios of standalone utility-scale batteries are now being financed on a merchant basis. The ...

BBVA supports financing of battery gigafactory developments in ...

In September 2023, BBVA acted as mandated lead arranger for a EUR 801 million syndicated loan facility to Envision AESC to support a planned EUR 1.1 billion battery gigafactory project in ...

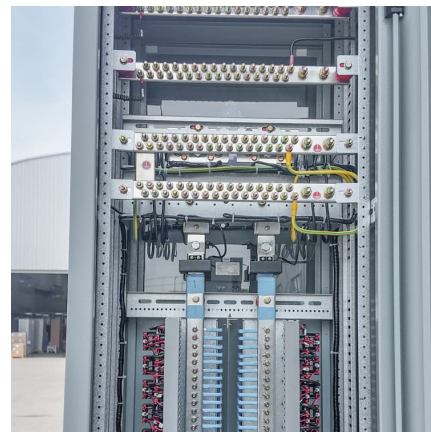

Financing the Future: Novel Approaches to Funding Energy ...

Innovative financing models and public-private partnerships are paving the way for the large-scale deployment of energy storage technologies essential for integrating ...

[Alpiq Acquires 100 MW/200 MWh Battery Storage ...](#)

Alpiq, a Switzerland-based electricity producer, announced the acquisition of the 100 MW/200 MWh battery energy storage project located in the department of Oise, north of Paris, France from Harmony Energy, a renewable ...

[Excelsior contracts 7.5 GWh of battery storage tech ...](#)

Energy storage systems and services provider LG Energy Solution Vertech Inc has signed a multiyear agreement to supply 7.5 GWh of its technology to Excelsior Energy Capital for battery energy storage systems ...

Scatec and AMEA Power Secure Financing for Major Battery Energy Storage

The financial closure of two major large-scale projects in Egypt signifies a promising advance for the country's emerging energy storage sector. Recently, developers ...

The 360 Gigawatts Reason to Boost Finance for Energy Storage ...

The gap to fill is very wide indeed. The International Renewable Agency (IRENA) ran the numbers, estimating that 360 gigawatts (GW) of battery storage would be needed ...

Top 10 Energy Storage Investors in North America , PF Nexus

Discover the current state of energy storage investors in North America, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

TagEnergy and Banque des Territoires enter into an investment

Paris, April 8, 2025 - TagEnergy, a leader in clean energy production behind construction of the largest battery energy storage platform in France, and Banque des Territoires, announce a ...

TagEnergy and Banque des Territoires Join Forces to Boost Battery

TagEnergy and Banque des Territoires have signed a strategic three-year investment partnership to accelerate the development of battery energy storage projects across France. The ...

[Your Guide To Solar Battery Storage Financing](#)

With refinancing, you take a larger mortgage and use the balance to finance your project. Both options can earn you tax credits since they finance home upgrade projects. Battery Leases and Power Purchase Agreements Battery leases are ...

What Investors Want to Know: Project-Financed Battery Energy Storage

Battery energy storage systems (BESS) store electricity and flexibly dispatch it on the grid. They can stack revenue streams offering arbitrage, capacity and ancillary services ...

SNAP's battery storage projects gain financial backing ...

SNAP's first energy storage project, the 24-MW Magat BESS, began commercial operations in January 2024, participating in the reserve market for ancillary services. BESS uses batteries to store electricity from the grid, ...

Financing Battery Energy Storage for Sustainable Futures

Explore financing options for battery energy storage systems and their role in promoting a sustainable energy future through innovative solutions and investments.

[New Subsidy schemes for Battery Energy Storage ...](#)

The MF programme is providing funding between 2024 - 2028 for the construction of electricity storage facilities with a power rating of not less than 2 MW and a capacity of not less than 4 MWh connected to the grid at ...

Alpiq Acquires 100 MW/200 MWh Battery Storage Project in France

Alpiq, a Switzerland-based electricity producer, announced the acquisition of the 100 MW/200 MWh battery energy storage project located in the department of Oise, north ...

The major Battery Storage projects from around the world

We provide a detailed report on all the major Battery Storage construction projects around the world with key focus on the largest projects in Europe, Africa, USA and Asia

Energy Storage Project Revenue Risk: What Questions Are There?

Figure 1: Planned Utility Scale Additions in 2023, U.S. Energy Information Administration, February 2023 The U.S. Energy Information Administration (EIA) expects to add 9.4 GW of ...

Utility-Scale Battery Storage in the U.S.: Market Outlook, Drivers, ...

According to the U.S. Energy Information Administration (EIA), installed utility-scale battery storage capacity surpassed 15 GW in 2024 and is projected to more than double ...

[Financing Battery Energy Storage Systems - Meeting...](#)

Conclusion Battery energy storage systems represent a keystone for the transition towards a more sustainable energy generation and utilisation. Despite the value and advantages that they offer to enhance grid ...

Sustainable Battery Storage Projects - An Investment with a Future

Large-scale battery storage in Europe: How to invest in the energy transition with power storage. Sustainable, secure, future-oriented. Here's how it works.

Quinbrook Closes \$722M Financing Deal for Supernode Battery Storage

(IN BRIEF) Quinbrook Infrastructure Partners has secured a \$722 million AUD debt financing deal for Stages 1 and 2 of its Supernode battery energy storage system (BESS) ...

Making project finance work for battery energy storage projects

This report analyses the barriers to obtaining project finance for BESS projects, as well as highlighting the lessons that can be learnt from early BESS project finance success stories.

France for Batteries

To support projects in the battery industry, France has decided to create a new tax credit covering 25% of investment expenditure for large companies and up to 45% for small companies ...

[Funding Batteries Innovation And Technologies: A...](#)

Bpifrance has launched a call for projects to encourage and support research and innovation in batteries in line with its ambition to support entrepreneurs towards a more sustainable development. Transition towards ...
