

Government procurement price of ESS container in China

Overview

The average bid stood at CNY 0.473/Wh (\$65/kWh). From ESS News Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS).

The average bid stood at CNY 0.473/Wh (\$65/kWh). From ESS News Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS).

China Energy Engineering Corporation (CEEC), a state-owned infrastructure giant, has launched one of China's largest energy storage procurements to date, tendering 25 GWh of lithium iron phosphate (LFP) battery systems on 3 June. The bid is being viewed as a watershed moment for the marketization.

China's electrochemical energy storage capacity grew rapidly, with 5 GWh added in 2021 (an 89% year-on-year increase) and 15.3 GWh added in 2022 (a 206% year-on-year increase). This growth is driven by higher energy storage configuration ratio requirements and regulations stipulating energy storage.

The Ministry of Finance (MOF) is the primary authority responsible for overseeing China's government procurement system. The MOF's China Government Procurement Information Network (CGPI) is the official platform for publishing procurement information. The CGPI publishes information on procurement.

State-owned EPC firm China Power Construction Group (Power China) recently concluded a 16GWh BESS supply tender, which resulted in extremely low prices amidst a squeezing of market share and increased buying power from state-owned companies, an S&P analyst told Energy-Storage.news. The tender for.

The bids were opened on December 4. The tender attracted 76 bidders, with quoted prices ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh. Notably, 60 of the bids were below \$68.4/kWh, signaling competitive pricing trends in China's energy storage market. According to the previously

announced.

Home / Metal News / The quoted price for 4h ESS is as low as 0.37 yuan/Wh, while the global market is experiencing a 70% compound annual growth rate. The quoted price for 4h ESS is as low as 0.37 yuan/Wh, while the global market is experiencing a 70% compound annual growth rate. In early June. What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

What does China Energy Engineering Corporation's landmark procurement mean for energy storage?

China Energy Engineering Corporation's landmark procurement signals a shift toward market-driven energy storage, with bids reflecting aggressive cost-cutting and rising industry consolidation.

What are the laws governing government procurement in China?

The Government Procurement Law of the People's Republic of China (2007) is the primary law governing government procurement in China. The Tendering and Bidding Law of the People's Republic of China (1994) establishes the general principles for tendering and bidding procedures.
