Nama Power and Water Procurement (PWP) is the single procurer of power and water capacity and output in the Sultanate of Oman and is responsible for ensuring the security of sufficient electricity and water production capacity at an economic purchase basis to meet the growing demands in the.

The General Secretariat of the Tender Board achieves significant cost savings across government contracts by streamlining procurement and prioritizing local suppliers. MUSCAT, 5 May 2025 – The Directorate General of Government Procurement, operating under the General Secretariat of the Tender Board.

The Oman Power and Water Procurement Company (OPWP), the single buyer of electricity and water output in the Sultanate of Oman, says it plans to study options for energy storage development as part of the nation's transition to a greener and sustainable future. The move – a first in Oman's power.

PWP is a regulated entity with obligations to procurement capacity and output via contracts, to meet demand. Existing: • 9,716 MW generation capacity (13 plants). 1,336,000 m<sup>3</sup>/d desalination capacity (10 plants). Under construction: 600,000 m<sup>3</sup>/d. reach 30% generation by 2030 and 35-39% by 2040. A.

The Sultanate of Oman is currently producing most (97.5%) of the electricity

using natural gas. A recent report by the Oman Power and Water Procurement Co (OPWP) states that the Sultanate's annual electricity demand will increase at a rate of 8-10% over the coming years. By the end of 2030, the.
