According to foreign media reports, the Turkish government has issued a new feed-in tariff subsidy (FIT) for photovoltaic systems and other types of renewable energy power generation facilities. According to Decree No. 7189 published in the Official Gazette, the Turkish government has set 1.06. Where can I find information about government procurement in Turkey?

The primary official source for Turkey government procurement is the Public Procurement Authority (PPA). The PPA provides information on all government tenders, including tender announcements, tender documents, and award notices. Additionally, the Ministry of Finance provides information on government procurement policies and procedures.

How much does a large scale PV project cost in Turkey?

Through the procurement exercise, which is the fifth of the Yeka series, the Turkish authorities want to select 76 large scale PV projects with capacities ranging from 10 to 30 MW across three 23 cities. The ministry has set a ceiling price of TRY0. 40/kWh (\$0.045). Applications will be received on January 12.

Do you need a license for solar energy in Turkey?

Turkish regulations stipulate that renewable energy investments of less than 5 MW do not require a license from the Energy Regulatory Authority (EMRA). Roof-top solar energy producers can sell their excess electricity to the grid at a maximum limit of 5 MW if they are production plant owners, and 10 kW if they are homeowners.

Can a roof-top solar energy producer sell excess electricity?

Roof-top solar energy producers can sell their excess electricity to the grid at a maximum limit of 5 MW if they are production plant owners, and 10 kW if they are homeowners. Solar and wind energy investments receive customs duty exemptions, corporate tax deduction, and other incentives.
