

Home energy storage tender price in Guernsey 2026

Overview

What is the maximum resale price for electricity in Guernsey?

Guernsey Electricity Limited, in accordance with section 23 (2) (b) of the Electricity (Guernsey) Law 2001, hereby gives notices that the maximum resale price at which electricity can be resold by persons to whom it is supplied is *25 pence per unit. What Is A Tariff?

Put simply, a tariff calculates your bill.

What if I want to supply the states of Guernsey with goods or services?

If you are interested in supplying the States of Guernsey with goods or services, please register on the online tender portal to receive automatic notifications when relevant tenders are published.

Does Guernsey Electricity charge a monthly charge?

Where Guernsey Electricity is required to provide a standby electricity service for 'behind the meter' non-renewable energy installations (including CHP) with generation capacity in excess of 25kW, a monthly charge will be applied. For every kW of installed capacity, we charge the standby rate'.

Does Guernsey have electricity?

It was proposed that Guernsey Electricity would continue to supply all islanders (both domestic and commercial) with electricity through the network, but that competition be introduced in all other sectors of the market meaning the way in which electricity is sourced to meet customers demands would change.

What is the energy strategy for Guernsey?

The Electricity Strategy for Guernsey covers the period up to 2050. The Committee for the Environment & Infrastructure considered several different ways in which Guernsey could meet its future demand including solar, wind,

tidal, additional interconnectors, energy storage and alternative fuels.

Does Guernsey have a heat pump tariff?

There is also a dedicated Heat Pump Tariff. Guernsey Electricity reserves the right to interrupt a supply to dedicated heating tariff meters, in the unlikely event of severe network conditions for up to 30 minutes in a 24-hour period, with a maximum number of interruptions being four times per calendar year.
