

# **Hungary yingli shared energy storage**

## Overview

---

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system – a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

Will Hungary support the installation of new electricity storage facilities?

Hungary notified to the Commission, under the Temporary Crisis and Transition Framework, a Hungarian scheme to support the installation of at least 800 MW/1600 MWh of new electricity storage facilities.

Will Hungarian electricity storage facilities support a net-zero economy?

The European Commission has approved a €1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. [Home](#) » [News](#) » [Electricity](#) » [Hungary awards EUR 158 million for 440 MW of energy storage](#)
