

Hybrid renewable storage tender price in Hungary 2026

Overview

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

How many solar facilities will Hungary have in 2026?

In another tender, for a wider range of companies, contracts are being signed to support the completion of 50 facilities in 2026 with HUF 62bn of state contributions. Lantos said Hungary's solar energy capacity has surpassed 7.5 GW.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. [Home](#) » [News](#) » [Electricity](#) » Hungary awards EUR 158 million for 440 MW of energy storage.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system – a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

Is MAVIR building a 20 MW energy storage system in Hungary?

With funds obtained within a previous program, the country's transmission system operator MAVIR is already building a 20 MW energy storage system in Szolnok in central Hungary, the ministry noted.

Hybrid renewable storage tender price in Hungary 2026

Promoting network-related battery investments in Hungary

Due to the high increase and penetration of weather-dependent renewable energy producing capacities, the use of storage capacities is of crucial importance Achievements Grid scale ...

[Hungarian Energy Minister: Government to offer new](#)

Domestic support for energy storage may soon increase to more than HUF 300bn, with several large storage facilities likely to be inaugurated this year, Energy Minister ...

[Hungary awards EUR 158 million for 440 MW of](#)

The winning bidders were selected a few days ago. They are set to install around fifty energy storage facilities, the Hungarian Ministry of Energy said. The selected companies and organizations must complete the ...
