

Industrial energy storage tender price in Chile 2026

Overview

Auctioning 2,310GWh per year to supply energy needs for a period of 15 years from 2026, the tender closed with average prices of US\$23.78/MWh, 27% lower than the country's auction in 2017. Will Chile be able to develop energy storage projects in 2024?

In 2022, Chile passed an energy storage and electromobility bill, which made stand-alone storage projects profitable, but the market is still expecting new rules on capacity payment for storage projects, which are to be approved in 2024. Chile has also put in place an auction procedure to award public land for the development of BESS projects.

Will Chile's storage capacity double in 2032?

The energy ministry spokesperson told Dialogue Earth that the country's environmental assessment body is currently assessing the viability of 300 more storage projects, with a total capacity of 16 GW. According to some projections, between 2026 and 2032, Chile's total storage capacity could double to 4 GW.

How many energy storage projects are in Chile?

According to a December 2023 publication on the InvestChile website, the country had 23 approved energy storage projects with a total of 3,000 MW of capacity. Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂.

How much energy will Chile have by 2026?

According to estimates of the national electric system of Chile (SEN) cited by Americas Market Intelligence, the country will have 13.2 GWh/ 2 GW (6–8-hour duration) of operating energy storage by 2026. The northern regions of Antofagasta and Atacama account for nearly 5GW of the BESS pipeline.

Does Engie Chile have a lithium-ion battery storage system?

Engie Chile, meanwhile, has two lithium-ion battery storage systems in operation, with a total capacity of 141 MW. At the beginning of next year, the company will inaugurate a 264 megawatt-hour, 96-battery facility, taking its total BESS portfolio in Chile to 371 MW.

How big is China's energy storage industry?

The Chinese energy storage industry has experienced rapid growth in recent years, too, with accumulated installed capacity soaring from 32.3 GW in 2019 to 59.4 GW in 2022. By 2027, it is expected to reach 97 GW.

Industrial energy storage tender price in Chile 2026

Chile Energy Information

Through an agreement signed in 1992, Chile authorised the bidirectional use of the pipeline and the storage of oil, rendering facilities suitable for both exportation and importation.

Latin America Solar PV News Snippets: Chile to Launch ...

The 2 GW Oasis project is planned to host 11 GWh of storage capacity, which the Spanish company touts as the world's largest storage project (see Latin America Solar PV News ...

Chile seeks multi-gigawatts of large-scale storage for ...

The government of Chile will launch a bill this year to procure large-scale energy storage systems for commissioning in 2026 totalling US\$2 billion of investment, on top of 5GWh already being sought for 2027-28.

[Chile's power auction to support 2GW of renewables ...](#)

Auctioning 2,310GWh per year to supply energy needs for a period of 15 years from 2026, the tender closed with average prices of

US\$23.78/MWh, 27% lower than the country's auction in 2017.

Chile - pv magazine International

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022. Ensuring projects are paid for
