

International energy storage conference meng lin

Overview

From March 20 to 22, 2025, CESC will join hands with 1,000+ global energy storage leaders, 200+ industry veterans, 10,000+ professional visitors, and 70+ media to connect global energy storage companies and embark on a new journey for the industry! What is China International Energy Storage Conference?

The China International Energy Storage Conference is a platform focusing on industrial energy storage manufacturing. Here we showcased new technologies and were very happy to see many customers coming to our booth to communicate. In the future, we will participate in the exhibition with better solutions.

How many international conferences has Dr Lin been invited for?

He has been invited for over 10 international conferences talks. He acted as the session chair (Solar Chemistry) for ASME Energy Sustainability Conference in year 2018 and 2019. Dr. Lin has served as reviewers for various international journals and entitled as excellent reviewer of Solar Energy for twice.

What is the energy storage exhibition & docking platform?

It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.
