

Interpretation of the tax incentives for shared energy storage

Overview

This guidance has provided welcome clarity for sponsors, investors, lenders, credit buyers, equipment vendors, service providers, and tax credit insurance providers, allowing for the market for financing energy storage facilities based on the monetization of ITCs to take off.

This guidance has provided welcome clarity for sponsors, investors, lenders, credit buyers, equipment vendors, service providers, and tax credit insurance providers, allowing for the market for financing energy storage facilities based on the monetization of ITCs to take off.

Tax-exempt and governmental entities, such as state and local governments, Tribes, religious organizations, and non-profits may install energy-generation and storage property to meet energy demands, reach clean energy transition goals, or save money on energy costs. This tax credit can help offset.

The Inflation Reduction Act of 2022, P.L. 117 – 169, significantly amended and expanded the investment tax credit (ITC) under Sec. 48, including making additional types of energy property eligible for the ITC, and providing increased credit amounts for energy projects that satisfy prevailing wage.

The U.S. Treasury Department and IRS on December 4, 2024, released final regulations (T.D. 10015) relating to the investment tax credit (ITC) for energy property under section 48, including rules for determining whether investments in energy property are eligible for the energy credit and for.

The ITC is a key incentive for investment in clean energy facilities and energy storage technology. The final regulations provide guidance on amendments to Section 48 under the Inflation Reduction Act of 2022 (the “IRA”). In November 2023, IRS and Treasury released proposed and temporary.

Investment tax credits are designed to reduce the cost of technologies and practices and incentivize private investment, resulting in adoption. Section 48 of the tax code provides an investment tax credit specifically for property in the energy sector including qualified small wind, waste energy.

On Aug. 16, 2022, President Joe Biden signed into law the Inflation Reduction Act of 2022 (IRA), which includes new and revised tax incentives for clean energy projects. This alert provides a summary of the IRA's impact on tax credits for energy storage technologies, which were extended and. What is a tax payer's basis in a thermal energy storage property?

The final regulations further provide that a "taxpayer's basis in the thermal energy storage property includes the total cost of the thermal energy storage property and HVAC system less the cost of an HVAC system without thermal storage capacity that would meet the same functional heating or cooling needs."

Who can install energy-generation & storage property?

Tax-exempt and governmental entities, such as state and local governments, Tribes, religious organizations, and non-profits may install energy-generation and storage property to meet energy demands, reach clean energy transition goals, or save money on energy costs.

What regulatory guidance has the government released on energy storage?

Of particular importance to the energy storage industry, the government has released final regulatory guidance for the ITC (both Section 48 and 48E of the Code), prevailing wage and apprenticeship (PWA) requirements, and transferability and direct payment, as well as other guidance on the energy community and domestic content tax credit "adders."

What is the base tax credit for energy projects?

- For projects beginning construction on or after Jan. 29, 2023 or where the maximum net output is 1 MW or greater, the base tax credit is 6% of the taxpayer's basis in the energy property or qualified facility (or energy storage technology).

Are IRA tax benefits a viable option for energy storage facilities?

While the vitality of the IRA tax benefits in their current form is currently subject to uncertainty given the results of the 2024 federal general election, the existing market practice for financing energy storage facilities since the IRA's passage continues to evolve in reaction to the act's new requirements and opportunities.

What are the New IRA rules for energy storage?

Energy storage was one of the major beneficiaries of the IRA's new rules on both the deployment and manufacturing sides. The IRA enacted the long-sought investment tax credit (ITC) under Section 48 and 48E of the Internal Revenue Code (the Code) for standalone energy storage facilities.
