

Jiawei solar batteries 18500

Overview

What is a 18500 battery?

18500 batteries are a type of rechargeable lithium-ion battery that measures 18mm in diameter and 50mm in length. They are similar in size to a AA battery, but they offer much higher voltage and capacity. If you encounter any problems or have any questions about the battery, please feel free to Email to us at any time.

Is 18500 LiFePO4 a good battery?

The 18500 LiFePO4 battery is also known for its low self-discharge rate, which means it can hold its charge for a long time when not in use. This makes it an ideal battery for devices that are used infrequently or left idle for extended periods. This battery is also lightweight, which makes it an excellent choice for portable devices.

What is the energy density of 18500 LiFePO4 battery?

This battery has an energy density of 82.05 wh/kg, which is quite high compared to other batteries in its class. Another advantage of the 18500 LiFePO4 battery is its long cycle life.
