

Jinpan technology energy storage company factory operation

Overview

What will Jinpan technology do during the 14th five-year plan?

During the 14th Five-Year Plan period, Jinpan Technology will focus on new energy and digital industrialization as the strategic core, continuously consolidate the company's dominant position in the field of new energy, focus on energy storage series products, and deploy nationwide energy storage digital factories.

How Jinpan technology uses digital technology as a carrier?

Jinpan Technology will use digital technology as a carrier to promote the commercialization of digital overall solutions while fully realizing the digital transformation of enterprises.

What is digital energy management system of Jinpan smart technology Haikou base?

At this stage, the Digital Energy Management system of Jinpan Smart Technology Haikou Base mainly covers the production workshop, distribution room and office area of the digital factory.

What is Jinpan technology?

Jinpan Technology will unleash the vitality of high-quality development and the resilience to resist risks, join hands with stakeholders to build a "community of corporate destiny", create more comprehensive economic, social and environmental value, and contribute to the harmonious coexistence and sustainable development of mankind and the earth.

What is Jinpan technology Haikou digital factory?

In 2021, Jinpan Technology Haikou Digital Factory was built. The application of an intensive land use plan and green energy--rooftop photovoltaic power generation system and rainwater, sewage recovery and recycling system, fully reflects "green, intelligent" concept, realizing environmental protection and

intelligence of infrastructures.

How does Jinpan work?

Each team is equipped with appropriate labor protection products as required, and uses them correctly in strict accordance with the requirements to achieve effective protection. Jinpan technology actively uses digital means to eliminate potential safety hazards, thus ensuring safety production.
