The complex is a massive natural gas power plant that will replace the existing Kingston Coal Plant in Harriman, about 40 miles west of Knoxville. The iconic plant along Interstate 40 is owned and operated by the Tennessee Valley Authority, the nation's largest public power provider. Like the.

Following a multi-year public process, the Tennessee Valley Authority has officially made the decision to retire its coal-fired units at the Kingston Fossil Plant and build an “energy complex” at the site by the end of 2027. This was not unexpected, but the federal utility officially announced the.

TVA envisions multiple energy-producing and storage plants there in the coming years. The plan is to retire coal-fired units in a few years. KINGSTON, Tenn — TVA is unveiling long-awaited plans for the aging Kingston fossil plant -- construction of an "energy park" that will feature solar.

ire the nine coal-fired units at Kingston by the end of 2027. To replace that generation, TVA will build an energy complex that will house at least 1,500 megawatts of combined cycle and dual-fuel Aeroderivative natural gas combustion turbines with 100 megawatts of battery storage and u to 4.

KNOXVILLE, Tenn., March 7, 2025 /PRNewswire/ -- The Tennessee Valley Authority is calling on the nation's premier Battery Energy Storage System (BESS) developers to submit proposals for a 100-megawatt BESS system at the utility's Kingston Energy Complex under construction in Roane County.

As an active participant in Ontario's energy transition, Utilities Kingston is supporting a long-duration energy storage project that would store electricity to be used in meeting peak demand. We are proud to be a partner on the proposed Quinte Energy Storage Centre (QESC), that would contribute.

## Kingston midcontinent energy storage power station

---

### **TVA builds Kingston 'energy complex' to replace coal ...**

The towering coal plant in Roane County will be replaced with natural gas by 2027 with power-grid-level batteries and solar to follow.

### Kingston Advanced Energy Storage Power Plant Operation

The flexibility of operation of hydro and pumped-storage power plants and the variety of ancillary services that they provide to the grid enable better utilization of variable renewable resources

...

### **TVA to replace Kingston coal-fired units with natural gas, solar**

Kingston's nine units can generate about 1.4 GW of electricity at capacity. The plant, located about 35 miles west of downtown Knoxville, entered operations in the 1950s.

### KINGSTON ENERGY STORAGE LTD OVERVIEW

Kingston Fossil Plant is a 1,700.0-megawatt (MW) coal-fired power station owned and operated by Tennessee Valley Authority near Kingston, Tennessee. The picture belows shows the ...
