

# **Latest polish energy storage power generation policy**

## Overview

---

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

Will energy storage subsidy programs accelerate Poland's energy transition?

The development of energy storage subsidy programs in 2024-2025 has great potential. The planned activities will accelerate Poland's energy transition, supporting the development of technologies and the creation of new jobs in the energy sector. Energy storage subsidy programs are crucial to stabilizing Poland's electricity grid.

What is Poland's energy storage program?

The program, "Electricity storage facilities and infrastructure for improving the stability of the Polish power grid," is aimed at companies planning to invest in energy storage facilities with a capacity of at least 2 MW and a minimum capacity of 4 MWh.

Will Poland support new electricity storage facilities in 2024?

In an announcement released on October 3, 2024, the executive arm of the European Union said that the Polish scheme will support the installation of at least 5.4 GWh of new electricity storage facilities. The policy will support only newly installed storage facilities with a capacity of at least 4 MWh.

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.

Which storage facilities will be supported by Poland's energy policy?

The policy will support only newly installed storage facilities with a capacity of at least 4 MWh. Eligible projects will be connected to Poland's electricity distribution or transmission networks at all voltage levels.
