

Latest subsidy policy for malabo energy storage project

Overview

The CEE energy storage market holds much promise but grants and subsidies might be needed to get it off the ground, said speakers on Day 1 of the Energy Storage Summit Central Eastern Europe (CEE) today.

The CEE energy storage market holds much promise but grants and subsidies might be needed to get it off the ground, said speakers on Day 1 of the Energy Storage Summit Central Eastern Europe (CEE) today.

But in Iraq's Malabo region, it's becoming the VIP guest at the renewable energy party. With global energy storage now a \$33 billion industry generating nearly 100 gigawatt-hours annually [1], Iraq is finally joining the bandwagon through targeted subsidy policies.

The latest energy storage battery subsidy policy Subtitle G introduces the ITC for batteries or other technologies used to store electricity with a minimum capacity of 5kWh.

Maimouna Mbow Fam, World Bank Country Manager for Burkina Faso, says that " this new project is fully in line with our Sahel strategy to double electricity access rates by 2025, particularly in rural areas, and create conditions for more private financing in the energy sector.

Subsidy policies for energy storage technologies are adjusted according to changes in market competition, technological progress, and other factors; thus, energy storage subsidy policies are uncertain.
