

Linyang energy storage investment

Overview

(Yicai) July 18 -- Jiangsu Linyang Energy is planning to build energy storage facilities overseas, with Southeast Asia, Europe and the Middle East identified as the Chinese smart energy company's three key regions for international growth. Where is Linyang energy storage located?

In the Middle East, Linyang has set up a joint venture energy storage factory with its strategic partner ECC. The facility includes the production of smart meters and energy storage systems. In Southeast Asia, Linyang has an energy storage operations center in Jakarta, Indonesia, with a full team already assembled, the company previously said.

What business segments does Linyang operate in?

Linyang mainly operates in three business segments, namely smart grids, renewable energy and energy storage. The energy storage segment focuses on solutions for renewable power generation, independent energy storage power stations, industrial and commercial energy storage systems, and user-side microgrid applications of solar-plus-storage.

Where does Jiangsu Linyang energy plan to build energy storage facilities?

(Yicai) July 18 -- Jiangsu Linyang Energy is planning to build energy storage facilities overseas, with Southeast Asia, Europe and the Middle East identified as the Chinese smart energy company's three key regions for international growth. Of them, Europe is the priority market, the firm's vice chairman told Yicai in a recent interview.

Why should you choose Linyang energy storage?

The competitive advantage of Linyang Energy Storage comes from the vertical integration of the industry chain of Linyang Energy Group, which enables Linyang Energy Storage to provide cross-departmental and cross-functional products and services, so that it can flexibly respond to the diversified needs of different industries.

Does Linyang have a smart meter factory?

Linyang already operates a smart meter factory in Indonesia and in the future, depending on local policies, it may add energy storage production facilities on that site. In the Middle East, Linyang has set up a joint venture energy storage factory with its strategic partner ECC.

Where is Linyang based?

In the third quarter last year, Linyang set up a sales, technical support, solutions and after-sales service center for its energy storage business in Warsaw, Poland and already has a full team in place.
