According to Wechat Official Account @EnergyStorage001, on April 15, local time, Mr. Lu Yonghua, President of Linyang Group and Chairman of Linyang Energy, Mr. Fang Zhuangzhi, Senior Vice President of Linyang Energy, and other senior leaders of the company went to Milan, Italy, to hold in-depth.

(Yicai) July 18 -- Jiangsu Linyang Energy is planning to build energy storage facilities overseas, with Southeast Asia, Europe and the Middle East identified as the Chinese smart energy company’s three key regions for international growth. Of them, Europe is the priority market, the firm’s vice.

Focusing on the application of renewable energy generation supporting energy storage, centralized shared energy storage, independent energy storage, user-side energy storage, user-side PV+ESS system, peak shaving and frequency regulation energy storage system, etc. With advanced energy storage.

Announced by the National Development and Reform Commission (NDRC) and

the National Energy Administration (NEA), the new plan is expected to drive CNY 250 billion (\$35.1 billion) in sector investment. From ESS News China aims to install more than 100 GW of new energy storage – primarily battery.

China, which already boasts the world’s largest energy-storage capacity, is set to nearly double that level by 2027, with an anticipated investment of 250 billion yuan (US\$35 billion), according to Beijing’s latest action plan. As outlined in the action plan, China’s “new-energy storage system”.
