

Lithium solar battery tender price in China 2026

Overview

China's battery packs plummet in price again. Hydrogen prices didn't decline and BNEF triples its estimates for future costs. The implications are huge.

China's battery packs plummet in price again. Hydrogen prices didn't decline and BNEF triples its estimates for future costs. The implications are huge.

The Power Construction Corporation of China drew 76 bidders for its tender of 16 GWh of lithium iron phosphate (LFP) battery energy storage systems (BESS), according to reports. Bids averaged \$66.3/kWh, with 60 bids under \$68.4/kWh. The tender, covering supply, system design, installation guidance.

State-owned EPC firm China Power Construction Group (Power China) recently concluded a 16GWh BESS supply tender, which resulted in extremely low prices amidst a squeezing of market share and increased buying power from state-owned companies, an S&P analyst told Energy-Storage.news. The tender for.

The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS). In the latest tender, more than 80% of bidders quoted prices below CNY 0.5/Wh (\$69/kWh).

According to reports out of China, the Power Construction Corporation of China (PowerChina) has attracted 76 bidders for its unprecedented tender of 16 GWh. The bids were opened on December 4, and according to PV Mag, has attracted prices ranging from \$US60.5/kWh to \$US82/kWh, with an averaging of.

The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS). In the latest tender, more than 80% of bidders quoted prices below CNY 0.5/Wh (\$69/kWh).

Average lithium-ion battery pack prices have been declining rapidly; down

from over \$700 USD/kWh in 2013 to just \$140 in 2021. However, rising raw material and battery component prices, coupled with soaring inflation, led to the first ever year-over-year increase in lithium-ion battery pack prices.

Lithium solar battery tender price in China 2026

Indonesia-China lithium battery plant to be operational by end-2026

JAKARTA: A lithium-ion battery plant by an Indonesian company and China's CATL is expected to be in operation by the end of 2026 with an initial capacity of 6.9 gigawatt ...
