

Nandu energy storage power station factory operation

Overview

Who is Nandu power?

Recently, Nandu Power, a member unit of China Electric Power Association, successfully won the bid for the 100MW/400MWh independent shared energy storage power station project in Yumen City, Gansu Province. The supply content is Nandu Center L Plus liquid cooled energy storage system.

How many trees are planted at Nandu power?

The energy storage stations built by Nandu Power are equivalent to planting 10.68 million trees. Founded in 1994, Zhejiang Nandu Power Supply Co., Ltd. (referred to as Nandu Power) has consistently focused on the development and application of energy storage technologies and products.

Who is Zhejiang Nandu power supply?

Founded in 1994, Zhejiang Nandu Power Supply Co., Ltd. (referred to as Nandu Power) has consistently focused on the development and application of energy storage technologies and products. The company provides battery products, system integration, and services primarily in the new and industrial energy storage sectors.

What makes Nandu power a good company?

Nandu Power integrates ESG principles throughout its operations, establishing closed loops in lithium and lead battery production, resulting in a recovery capacity of 25,000 tons, effectively giving products a second life.

Is Nandu power a good ESG company?

Nandu Power has been awarded the “Excellent ESG Case in the Yangtze River Economic Belt” award, highlighting the company’s ESG practices.

How many kilowatts is China's new energy storage capacity?

China's new energy storage has been put into operation with an installed capacity of more than 30 million kilowatts, and Bian Guangqi, deputy director of the Energy Conservation and Science and Technology Equipment Department of the National Energy Administration of China, introduced at a press conference on the 25th that in 2023.
