

New energy and energy storage application expo

Overview

The 9th (2024) International Energy Storage Technology, Equipment and Application Conference will invite policymakers, experts and scholars, leading enterprises, financial institutions, consulting institutions and media in energy storage industry to discuss industrial policies.

The 9th (2024) International Energy Storage Technology, Equipment and Application Conference will invite policymakers, experts and scholars, leading enterprises, financial institutions, consulting institutions and media in energy storage industry to discuss industrial policies.

Facing energy security, pollution, and climate change concerns, many countries have shifted toward renewable energy and introduced various plans to adjust their energy structures, aiming to achieve a clean power supply through new energy sources. In recent years, the development of renewable energy.

The exhibition covers an area of 50,000 square meters, and mainly includes professional exhibition areas such as photovoltaics, energy storage, charging and swapping, photovoltaic building integration, distributed energy multi-energy complementarity, industry-university-research, and finance.

86,000 sqm and over 2,000 exhibitors, focusing on the development of new power systems! .

November 2025 | Trade fair for innovative technologies and applications in the energy storage industry The " Shanghai International Energy Storage Technology Application Expo ", commonly referred to as ES Shanghai, is a significant annual event held at the Shanghai New International Expo Center.

The pledge of achieving "Carbon Neutrality" will accelerate the leap forward development of renewable energy and put forward higher requirements for energy storage. During the 14th Five Year Plan period, China's renewable energy will fully enter the era of grid parity, providing a reasonable price.

CESC2025, the 3rd International Energy Storage Conference and Smart

Energy Storage Technology and Application Exhibition (hereinafter referred to as CESC), is a comprehensive exhibition created by the Jiangsu Energy Storage Industry Association that integrates internationalization, foresight and. What is the energy storage exhibition & docking platform?

It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.

How much does SNEC Expo cost?

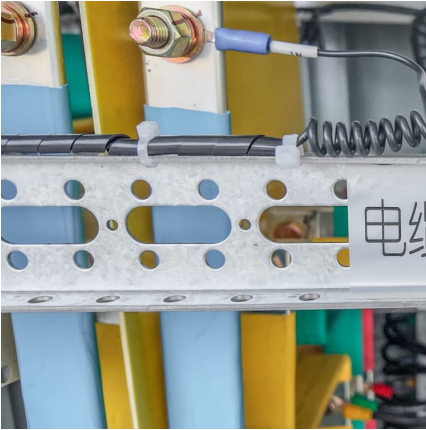

- Indoor Raw Space ($\geq 36m^2$) Price: US\$390/m² (AREA: A); US\$360/m² (AREA: B) Procedures of Exhibiting at SNEC EXPO: 1) Exhibitors shall mail the application form (contract) with company's seal to the organizing committee. 2) The principle of booth assignment: "First come, first serve".

Why is energy storage important?

Energy storage plays a vital role and serves as a key technology in renewable energy systems. It is essential for enabling the widespread adoption of distributed energy and microgrids, supporting energy interconnection and sharing, and achieving integration with the power grid.
