

New equipment outdoor group wins bid for energy storage

Overview

Recently, Shanghai Electric Power Station Group (SEPCO) has won two consecutive bids in the field of compressed air energy storage, winning the orders of 300MW compressed air energy storage and turbine power generation equipment for Jiuquan, Gansu Province, and 350MW compressed air.

Recently, Shanghai Electric Power Station Group (SEPCO) has won two consecutive bids in the field of compressed air energy storage, winning the orders of 300MW compressed air energy storage and turbine power generation equipment for Jiuquan, Gansu Province, and 350MW compressed air.

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy.

Let's cut to the chase: if you're into camping, off-grid living, or even just backyard BBQs, new outdoor energy storage equipment hitting the market by 2025 will blow your mind. This article is for: Adventure junkies who want to power drones and espresso machines in the wilderness (priorities).

Source: VRFB-Battery WeChat, 13 March 2025 Dalian Rongke Power Co., Ltd. (Rongke Power) has successfully won the bid, in partnership with China Power Construction Group Northwest Survey and Design Institute Co., Ltd., for the 100MW/400MWh vanadium flow battery energy storage project in Hami Guotou.

Recently, Shanghai Electric Power Station Group (SEPCO) has won two consecutive bids in the field of compressed air energy storage, winning the orders of 300MW compressed air energy storage and turbine power generation equipment for Jiuquan, Gansu Province, and 350MW compressed air energy storage.

(Yicai) Jan. 3 -- Chinese energy storage developer Clou Electronics has secured

an order from a US client engaged in the construction of energy storage, solar, and resilient power generation facilities. Clou will deliver 480-megawatt-hour container-type energy storage systems and 200-megawatt-power.

e for energy storage will usher in a new low in 2024. On March 12, Xinjiang Li New Energy"'s 75MW/300MWh energy storage system equipment procurement results were released. ret rn login Q Personal Center Perso ations, this study introduces the cloud model theory. Six factors, including battery.
