right system for you will depend on your energy situation, your location and what you want to achieve. To get you started, choose from the options below. Installing off-grid systems isn't as simple as installing normal. Who are off grid energy Australia?

Off Grid Energy Australia Are Expert Designers & Installers of Off Grid Power Systems, Stand Alone Solar Systems & Solar Battery Storage.

Why should you choose off grid solar kits?

At Off Grid Solar kits, we can customize a unique system to meet your power requirements perfectly. Talk to battery specialists like off grid solar kits before installing any stand-alone solar system or off grid battery bank, and you will get a high quality, reliable system at a great value price.

Are off grid solar systems cheaper?

If you live in a remote location and are moving into an existing house, adding a removable house or building a new house, then off grid solar systems can be cheaper than paying large setup costs connecting to the electricity grid. Or want to do it yourself?

We have small DIY off grid kits for sale and can offer professional, expert advice.

What is off-grid solar?

Off-grid Solar Systems are also known as Stand-Alone Power Systems (SAPS). They work by generating power from solar panels, which then charge a battery.

Who is off-grid energy?

Off-Grid Energy has been designing off grid power systems since 2002 and working with solar battery systems since 2006. We are specialists in On & Off grid solar system solutions, both big and small and provide reliable power supply and storage systems.

How much does an off-grid solar system cost?

Composed of three parallel systems, this setup guarantees uninterrupted power The ground-mounted system typically adds an extra cost of around \$3,000 to \$4,000 compared to roof installations. Explore 100UP's off-grid solar
