

# **On grid solar storage tender price in Portugal 2030**

## Overview

---

Reference payment prices given for the auction are around €33,000 (US\$37,430) per MW per year, including both solar and storage components. How much will Portugal spend on energy storage projects in 2025?

Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP).

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

How has solar technology changed the energy industry in Portugal?

Particularly in solar, there has been a significant reduction of costs associated with PV technology since 2017 which, alongside with the high level of predictability of solar resources, has led to an increase of the number of requests for energy production licenses in Portugal.

How much does a solar system cost in Portugal?

The Portuguese Government came into this auction expecting to obtain 33.5 thousand euros per MWh, but the winners ended up paying to 37.1 thousand euros per MWh to the system. Also, the World record for the lowest output price was broken once again with a bid of €0.0112/kWh. In Spain, the development of solar energy started earlier.

How much does a mw project cost in Portugal?

The first Portuguese auction under this new regime, in August 2019, awarded

1150 MW, distributed by 22 projects. Bids were submitted by two different pricing schemes: the guaranteed remuneration tariff where the average result has been of €22,22 p/MWh; and the market scheme, with an average tariff offered of €18.36 p/MWh.
