

# Paris solar battery park

## Overview

---

What is Paris Solar-Battery Park?

The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month. The 200-MW solar portion of the project went into service in December. The storage facility is made up of batteries capable of powering more than 130,000 homes for four hours.

Who owns the Paris Solar-Battery Park?

We Energies, the state's largest utility, is the majority owner of the Paris Solar-Battery Park. Two other utilities, Wisconsin Public Service and Madison Gas and Electric, are co-owners. The Paris Solar Park provides the energy stored in the batteries. It has nearly 500,000 solar panels and has been in operation since December.

How does Paris Solar-Battery Park work?

The Paris Solar-Battery Park can power more than 130,000 homes for four hours, according to We Energies. Officials explained the way the storage facility works. They said that batteries store excess power on sunny days. Then, that power is released at night or in the early morning when the sun isn't out.

How many batteries does Paris solar park have?

The park's 12,000 lithium-ion batteries can power over 130,000 homes for up to four hours. We Energies, the majority owner, plans to discharge the batteries multiple times per week. The accompanying Paris Solar Park, with nearly 50,000 solar panels, provides the energy stored in the batteries.

Does Paris Solar-Battery Park power Kenosha County's energy grid?

We Energies announced on Tuesday that the Paris Solar-Battery Park in Kenosha County has started serving customers on the energy grid. While the 200-megawatt solar portion of the project started service in December, the

110-megawatt battery portion hadn't been put into service yet. Now, officials say it's powering the energy grid.

What is the Paris Solar Farm?

The Paris Solar Farm is a 200 megawatt (MW) solar development in Kenosha County, WI. It is an opportunity to invest in the community, create jobs, and increase tax revenues while generating clean, American made energy.

## Paris solar battery park
