

Residential solar battery tender price in Chile 2026

Overview

The tender award documents for contracts beginning in 2026 reveal an average price of US\$24 per MWh.

The tender award documents for contracts beginning in 2026 reveal an average price of US\$24 per MWh.

Greenergy launches a new reverse auction for solar energy and storage in Chile. Greenergy is tendering 1.7 TWh of renewable energy in Chile, focusing on nighttime storage and solar supply for 2026-2027. Greenergy has launched a new reverse auction in the Chilean market to market 1.7 TWh of energy.

The tender award documents for contracts beginning in 2026 reveal an average price of US\$24 per MWh. Several companies with foreign capital took part in the tender process, such as Mainstream Renewable Power, Sonnedix and Canadian Solar, demonstrating the importance of foreign investment in Chile's.

Auctioning 2,310GWh per year to supply energy needs for a period of 15 years from 2026, the tender closed with average prices of US\$23.78/MWh, 27% lower than the country's auction in 2017. With 29 companies submitting bids, the tender was eight times oversubscribed, according to Chile's National.

The Chilean authorities want to contract 5,400 GWh of power from renewable energy, while also including battery storage. The selected developers will secure 20-year power purchase agreements (PPAs). From pv magazine LatAm CNE, Chile's energy regulator, has published the bidding rules for the.

Greenergy, a Spanish clean energy company, has initiated a reverse auction in Chile to sell approximately 1.7 terawatt hours of energy annually from its solar and battery facilities. The auction is managed by GR Power, Greenergy's energy commercialization division in Chile, and targets generators.
