

Rooftop solar storage project financing options in Australia 2026

Overview

How can I save money on a rooftop solar system?

There are government subsidies, rebates and loan options that can help you pay for rooftop solar or an associated battery for your home or business. You can save money on a rooftop solar system for your home or business through a range of government assistance schemes.

How many approved rooftop solar products are there in Australia?

There are currently 4,829 approved rooftop solar, inverter and storage products across Australia, which represents a 33 per cent decrease compared to the previous bi-annual report, largely due to changes in standards causing many listings to expire over a short period. A breakdown of the number of each product type is seen below.

How many rooftop PV units were installed in Australia in 2024?

In the second half of 2024 there were 159,011 rooftop PV units installed across Australia. Rooftop PV continues to be a key and growing contributor to the nation's energy mix, with a generation share of 12.4% for all of 2024 (up from 11.2% in 2023 and 6.5% in 2020). The total installed capacity of rooftop PV for 2024 was 3 GW from 300,375 units.

Does Australia offer financial assistance for solar?

Some state Governments in Australia provide financial assistance for energy-efficient purchases such as solar and/or battery storage for solar, usually in the form of interest-free or low-interest loans. To find out what is available in your State, check out our Government Incentives page here.

How much does a home rooftop solar system cost?

You take an interest-free loan for \$6,800 for a home rooftop solar system. You are repaying the loan over 4 years in monthly instalments. This works out to 48 instalments. $\$6,800 \div 48 = \141.67 .

How do I decide if a rooftop solar system is right for me?

To help decide if a rooftop solar system is right for you, you need to understand how much electricity your home or business uses. This will also help you decide what size system you need. Contact your current energy provider to find out how much electricity you use.
