

# Solar Inverter project financing options in Bangladesh 2026

## Overview

---

A credit risk guarantee scheme, a dedicated green finance facility with scope for pre-finance, and an import duty waiver on solar accessories can help accelerate the flow of finance for small-scale renewable energy projects.

A credit risk guarantee scheme, a dedicated green finance facility with scope for pre-finance, and an import duty waiver on solar accessories can help accelerate the flow of finance for small-scale renewable energy projects.

The government has signed a country partnership agreement with the International Solar Alliance in order to facilitate enhanced solar energy development in Bangladesh. The agreement will be implemented by December 2026, with the aim of leading Bangladesh into creating a pipeline of bankable solar.

Bangladesh will require up to US\$980 million annually until 2030 to meet the goal set out in the Renewable Energy Policy 2025. Post-2030, the country will need up to US\$1.46 billion annually until 2040. Policy uncertainty, offtaker and currency risk, land acquisition challenges, and a downgraded.

DHAKA, BANGLADESH (29 April 2024) — The Asian Development Bank (ADB) has signed a \$121.55 million financing package with Dynamic Sun Energy Private Limited to build and operate a 100-megawatt (MW) grid-connected solar photovoltaic power plant in Pabna, Bangladesh. The plant is the country's first.

The operation consists of a framework loan of up to EUR 350m to support climate action investments in Bangladesh. The facility will provide long-term finance to the Government of Bangladesh to develop renewable energy generation projects and potentially other eligible climate action investments.

The proposed project intends to make results-based climate/carbon finance payments of up to US\$16.76 million to IDCOL in exchange for verified emissions reductions (ERs) generated between January 2021 and December 2024 by 2.4 million installations of the existing solar home systems (SHS).

Muktagacha Solartech Energy Ltd. has agreed to build and operate a 20 MW solar project in Bangladesh, following the signing of a \$24.3 million investment package from the Asian Development Bank (ADB). The ADB has offered a \$24.3 million financing package for a 20 MW grid-connected solar power plant.
