

Solar battery federal tax credit

Overview

The current federal clean energy tax credit gives homeowners back 30% of the upfront cost to install solar panels at tax time, the year after they're installed. Luckily, batteries also qualify for the tax credit, whether or not they're installed with solar panels.

The current federal clean energy tax credit gives homeowners back 30% of the upfront cost to install solar panels at tax time, the year after they're installed. Luckily, batteries also qualify for the tax credit, whether or not they're installed with solar panels.

If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your.

On July 4, 2025, the One Big Beautiful Bill was signed into law, officially ending the 25D federal solar tax credit for homeowners on December 31, 2025. Here's what this means for homeowners, installers, and the future of clean energy. This content is for informational purposes only and does not.

How Do You Claim It?

How.

A new federal law signed in July 2025 is accelerating the phase-out of solar, battery, and wind tax credits that homeowners and businesses have relied on for years. If you're thinking about going solar or adding battery storage, this isn't the time to wait and see. You need to act now—with the.

This legislation brings significant changes to the federal tax credit for

residential and commercial solar and battery systems. Under this new law, homeowners who purchase their systems with cash or a loan will no longer be eligible for the 30% federal tax credit after December 31, 2025.

The following Residential Clean Energy Tax Credit amounts apply for the prescribed periods: Existing site: Non-federal sites are not endorsed by the government or subject to federal security and related guidelines. Existing site: Non-federal sites are not endorsed by the government or subject to. Do solar batteries qualify for a tax credit?

Luckily, batteries also qualify for the tax credit, whether or not they're installed with solar panels. Before 2022, a battery storage system had to charge exclusively from solar energy to qualify for the tax credit. Then Congress passed the Inflation Reduction Act, which updated the tax credit to include batteries not charged from solar power.

How does the solar tax credit affect residential solar?

Here's is how this law impacts residential solar: The 30% solar tax credit claimed by homeowners (25D) would be terminated at midnight on December 31, 2025. Homeowners who have their systems installed before the end of the year can still claim this credit against their federal tax liability.

Can you get a tax credit for a battery storage system?

In addition to the federal tax credit, several states have taken steps to help homeowners get battery storage systems with their solar installations. These incentives can be combined with the federal tax credit to reduce the total cost to own a battery down to a very manageable number.

When does the solar tax credit expire?

The 30% solar tax credit claimed by homeowners (25D) would be terminated at midnight on December 31, 2025. Homeowners who have their systems installed before the end of the year can still claim this credit against their federal tax liability. The 30% solar tax credit for leases and PPAs (48E) would be available through the end of 2027.

Are solar panels tax deductible?

The current federal clean energy tax credit gives homeowners back 30% of the upfront cost to install solar panels at tax time, the year after they're installed. Luckily, batteries also qualify for the tax credit, whether or not

they're installed with solar panels.

Will a solar project qualify for a 30% solar tax credit?

Yes. Based on the bill signed into law on July 4, projects installed in 2025 will qualify for the 30% solar tax credit. There is no language in the OBBB that retroactively strips the tax credit from homeowners who claim it lawfully.
