

Solar panel battery cover

Overview

Browse our full collection of durable, weather-resistant covers for solar batteries and inverters. Designed to improve efficiency, protect your system, and enhance outdoor spaces, our covers come in a range of sizes to suit your setup. Which solar inverter covers are available?

We have solar inverter covers for Fronius Primo and Fronius Symo inverters, Sungrow and Sungrow Hybrid inverters, Solaredge inverters and Goodwe inverters as well as battery covers for the Tesla Powerwall and Sungrow battery plus many more. We chose to design a universal cover which means our covers have no cutouts in the front panel.

What are solar panel protective covers?

Solar panel protective covers act as effective barriers between the solar panels and external environmental conditions. These covers, typically made of durable materials, help to increase the efficiency of solar panels by keeping them clean. These are easy to install and remove.

Do heavy batteries need a solar battery box?

Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, Bison Profab manufactures custom NEMA 3R enclosures.

What is a solar cover?

Designed to protect your solar equipment from weather and allow airflow to keep your solar equipment cool. Made from high quality marine grade aluminium and finished with powder coating. Our covers come including screws and wall plugs for easy installation.

What are the benefits of solar panel covers?

Solar panel covers protect solar panels during extended periods of inactivity, preventing damage, algae growth, and keeping birds and pests out. Some

covers are designed to prevent energy overload by blocking solar energy absorption during non-use periods. This helps in extending the panel lifespan in the long run. 4. Compatibility.

Why do you need a battery or inverter cover?

Our range of purpose-built battery covers, Inverter covers and battery and inverter covers offers reliable defence against the elements, improving performance and extending the life of your solar setup. Why Use a Battery or Inverter Cover?
