

# **Spain high-tech energy storage valley project put into operation**

## Overview

---

Prior administrative authorization and construction has been approved for the 27.46 MW BESS battery storage module FV Revilla-Vallejera Hybrid and its electricity evacuation infrastructure, for hybridization with the existing 44.199 MW FV Revilla-Vallejera photovoltaic installation in Vallejera, in Burgos, promoted by Iberdrola. What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

How will Spain increase its energy storage capacity?

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems.

How has Spain strengthened its energy infrastructure?

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a €700 million support scheme aimed at expanding large-scale energy storage across the country.

How many battery energy storage systems are in Spain?

More than 182 MW of the battery energy storage systems (BESS) highlighted in Spain's Official State Gazette (BOE) are for hybridization with existing solar and wind generation capacity. From ESS News pv magazine España lists the most notable energy storage projects announced in Spain's BOE in the fourth quarter of 2024.

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

What is the European Commission's new energy storage support scheme?

The European Commission approved a new support scheme. It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage.

## Spain high-tech energy storage valley project put into operation

---

### Spain increases energy storage target in NECP to 22.5GW by 2030

The target for energy storage has been increased from 20GW in the previous NECP to 22.5GW by 2030. Image: Iberdrola. Spain has increased its energy storage target by ...

### Spain launches two energy storage programmes with EUR280 million

The government of Spain is launching two programmes with EUR280 million in grants for standalone energy storage projects, thermal and PHES.

### [World's largest sodium-ion battery energy storage ...](#)

The first part of the world's largest sodium-ion battery energy storage system (BESS) has been launched in China. State media Yicai Global ...

### Spain Launches EUR700 Million Energy Storage Scheme to ...

Iberdrola España, a leading player in the renewable energy sector, has announced plans to deploy six Battery Energy Storage Systems

(BESS) with a combined ...

### Iberdrola to deploy 300MWh of battery storage projects in Spain

Utility and independent power producer (IPP) Iberdrola will deploy battery energy storage system (BESS) projects in Spain adding up to 150MW/300MWh, to be co ...

### [Top 10 energy storage manufacturers in Spain](#)

The article will explore top 10 energy storage manufacturers in Spain including e22 energy storage solutions, Iberdrola, Cegasa, HESSte, Uriel Renovables, ...

### Large photovoltaic hydrogen production project put into operation ...

A large-scale photovoltaic hydrogen production demonstration project entered operation in Kuqa City of Aksu Prefecture, northwest China's Xinjiang Uygur Autonomous ...

### **Spain Launches EUR700 Million Energy Storage Scheme to ...**

Spain's Ministry for the Ecological Transition and the Demographic Challenge (MITECO) has announced a major funding initiative worth EUR700 million to boost large-scale ...

### [Spain announces 820 MW of energy storage projects ...](#)

More than 182 MW of the battery energy storage systems (BESS) highlighted in Spain's Official State Gazette (BOE) are for hybridization ...

### **Spain awards subsidies for 904 MW of energy storage projects**

The Spanish ministry for ecological transition on Thursday announced that it has granted EUR 150 million (USD 166.1m) of state aid drawn from NextGenEU funds to ...

### [Pinnapuram Integrated Renewable Energy Storage ...](#)

The Pinnapuram Integrated Renewable Energy Storage Project is nearing commercial operation and represents a significant milestone in sustainable ...

### World's Largest Back-to-Back Flexible DC Power Project Put into

The world's largest back-to-back flexible direct current (DC) power project was completed in the Guangdong-Hong Kong-Macao Greater Bay Area and was put into operation ...

### Spain second country in world for stand-alone battery-based ...

Renewable energy will cover almost half of the world's electricity demand by 2030, according to the Renewables 2024 report by the International Energy Agency (IEA), ...

### Top five energy storage projects in Spain

Listed below are the five largest energy storage projects by capacity in Spain, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...

### **Energy storage to soar in Spain and Italy but questions remain**

Energy storage is set to soar in Spain and Italy in the coming years but there are question marks around the regulatory frameworks in each.

### **Iberdrola to deploy 300MWh of battery storage projects in Spain**

Iberdrola will deploy battery storage (BESS) projects in Spain adding up to 150MW/300MWh, to be co-located with existing PV plants.

### **Spain Targets 20GW of Energy Storage by 2030 As Part of New ...**

Spain's government has approved an energy storage strategy that it says will put the country "at the forefront" of what is being done in Europe and help it move towards its 2050 ...

### [Chinese battery maker Gotion expands European ...](#)

Chinese battery manufacturer Gotion High-Tech is focusing on European BESS projects. It plans to build energy storage plants in Spain as it ...

### [Spain's EUR700 Million Plan to Boost Energy Storage ...](#)

Spain's plan to add 2.5 to 3.5 GW of storage capacity will significantly improve the grid's ability to integrate renewable energy sources. ...

### **Spain is leveraging industrial clusters to lead Europe's ...**

Europe's industrial geography is being redrawn and Spain is in pole position to lead the way, with the prospect of becoming a flagship of the ...

### **Spain announces 820 MW of energy storage projects for Q4 2024**

More than 182 MW of the battery energy storage systems (BESS) highlighted in Spain's Official State Gazette (BOE) are for hybridization with existing solar and wind ...
