

Successful bid price of MW scale storage system project in Greece 2026

Overview

According to EnergyPress, the finalized list stands as follows: Bids in the tender round were priced at between EUR 33,948 per MW and EUR 64,122 per MW, with the weighted average price of the successful proposals standing at EUR 49,748 per MW annually. Bids were capped at EUR 115,000.

According to EnergyPress, the finalized list stands as follows: Bids in the tender round were priced at between EUR 33,948 per MW and EUR 64,122 per MW, with the weighted average price of the successful proposals standing at EUR 49,748 per MW annually. Bids were capped at EUR 115,000.

Helleniq Energy and Intra Energy (Intrakat) are each behind three of these 12 projects, PPC Renewables bid successfully for two projects, while Aenaos (Mytilineos), Energiaki Techniki Anaptyxiaki, Energy Bank, and one energy community bid successfully for one energy storage project each. According.

Greece has launched its third and final tender under a 1-GW program to support standalone battery energy storage systems (BESS), aiming to allocate 200 MW of capacity with available subsidies of EUR 200,000 (USD 217,920) per MWh. This move, approved by Greece's Regulatory Authority for Energy.

The average subsidy price in the third auction exercise came at €52589.16/MW/year. The lowest successful bid stood at €43927/MW/year, concerning a 25 MW/100 MWh project in the Western Macedonia region. The highest awarded subsidy came at €58773/MW/year and refers to a 7.9 MW/31.6 MWh project.

While 12 projects won awards in the first tranche of Greece's recent grid-scale energy storage auctions, what of the c.500 totalling nearly 27GW that didn't?

Jon Ferris, LCP Delta's Head of Flexibility and Storage, looks at the dynamics which could play out in rounds two and three in Europe's.

Greece has officially launched its third tender for battery energy storage capacity, aiming to allocate 200 MW of projects eligible for subsidies of up to 200,000 euros per MWh. This tender marks the final phase of Greece's

ambitious 1 GW program, which is designed to support the development of.

Greece has launched its third tender for battery energy storage capacity, seeking to award 200 MW of projects, which will compete for subsidies of EUR 200,000 (USD 217,920) per MWh. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication. The auction is. How many projects have been awarded in Greece's first battery energy storage system?

The Greek Regulatory Authority for Energy has confirmed that 411.8 MW of projects have been awarded in the country's first standalone battery energy storage system (BESS) tender, which has attracted huge interest among developers. Investment and operating aid will be granted to 12 projects put forward by seven proponents.

How many MW of new battery storage capacity does Greece have?

The Greek authorities have awarded 300 MW of new battery storage capacity in its second energy storage tender. The 11 winning projects range in size from 8.875 MW/17.75 MWh to 49.9 MW/100 MWh.

How many energy projects did helleniq & Intra Energy bid for?

Helleniq Energy and Intra Energy (Intrakat) are each behind three of these 12 projects, PPC Renewables bid successfully for two projects, while Aenaos (Mytilineos), Energiaki Techniki Anaptyxiaki, Energy Bank, and one energy community bid successfully for one energy storage project each.

How many MW can you bid for a project?

Further restrictions complicated the bidding process, including a maximum capacity of 100MW per project and 300MW per region, and no participant allowed to win more than 25% of any auction. These restrictions meant that Eunice and Piritium both bid 50MW for projects licensed at 250MW/1000MWh and 150MW/450MWh respectively.
