

# **Successful bid price of Solar Panel project in Saudi Arabia 2030**

## Overview

---

Saudi Power Procurement Co. (SPPC) has announced the shortlisted bidders for the the fifth round of the Saudi Arabian government's renewable energy tender program.

Saudi Power Procurement Co. (SPPC) has announced the shortlisted bidders for the the fifth round of the Saudi Arabian government's renewable energy tender program.

For the 2000 MW Al-Sadawi Solar PV IPP Project, the shortlisted bidders are a consortium comprising UAE-based Masdar and Korea Electric Power Corporation (KEPCO), which offered a price of \$0.0129/kWh, and a consortium formed by China-based SPIC Huanghe Hydropower Development Co., Ltd. and.

The Saudi Power Procurement Company (SPPC) has unveiled the qualified bidders for the fifth round of 3.7GW solar projects under the National Renewable Energy Programme (NREP) in Saudi Arabia, including several major renewables developers. In an announcement published by the Saudi Press Agency, the.

Dubai: Saudi Arabia has set a new world record for the lowest levelised cost of electricity for solar photovoltaics, achieving \$10.4 (Dh38) per megawatt-hour. Saudi Arabia, along with the UAE and Oman, is set to lead the Middle East's solar energy transition. This leadership is attributed to.

The Kingdom plans to generate 50% of its electricity from renewable sources by 2030, backed by a monumental investment of approximately \$188 billion. In 2023, the Saudi Power Procurement Company (SPPC) initiated the qualification process for four major solar projects totaling 3,700 MW of capacity.

Saudi Arabia's solar energy market is undergoing rapid expansion, with its value expected to rise from USD 2.5 billion in 2024 to USD 7.72 billion by 2030, according to Research and Markets. This growth, marked by a projected annual increase of 20.5%, is fueled by the Kingdom's Vision 2030.

**OPPORTUNITY DESCRIPTION:** Development of a Solar PV 300MW project in Saad as part of the REPDO Round 3 as an Independent Power Producer (IPP). How many solar panels will Saudi Arabia produce by 2030?

Solar panels on a camel trail and hiking path south of Riyadh. The Kingdom has set itself the target of generating half of its power needs from renewable sources by 2030 — 60 GW of solar and other forms of clean energy. (Shutterstock).

How much does solar cost in Saudi Arabia?

It stands as one of the largest single-contracted solar plants in the world and the largest in Saudi Arabia. Notably, it has achieved one of the lowest global costs for solar PV electricity production at just 1.239 US cents/kWh.

What are the biggest solar projects in Saudi Arabia?

Among the most prominent projects is the Sudair Solar PV Plant, which recently reached an operational capacity of 1,125 MW, with an ultimate goal of 1,500 MW. It stands as one of the largest single-contracted solar plants in the world and the largest in Saudi Arabia.

How much solar power does Saudi Arabia need?

With an ambitious target of 40 GW of solar capacity by 2030 and only 19 GW currently in the pipeline, Saudi Arabia must install an average of 5.5 GW of new solar capacity annually to meet its goal.

Who is winning SPPC bid - Masdar & EDF Renouvelables?

The SPPC announces that Masdar, EDF Renouvelables, Itochu Corporation and Total Energies Renewables are among the companies winning bid.
