

Successful bid price of home energy storage project in France 2026

Overview

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

What is Envision Energy's 'Saleux' project?

The Saleux site will use Envision Energy's direct current (DC), alternating current (AC) and power conversion systems (PCS) to provide the power grid with frequency regulation services on the French transmission system operator RTE's reserve markets.

Can energy storage be used as a virtual transmission asset?

Transmission operator RTE has already engaged in some trial activities through which storage is being deployed in continental France. One is Project Ringo, which gauges the effectiveness of energy storage as a virtual transmission asset.
