

Successful bid price of hybrid solar storage project in Croatia 2025

Overview

The plan includes a €10 million public call to install residential solar arrays in the second quarter of 2025, covering up to 50% of system investment costs.

The plan includes a €10 million public call to install residential solar arrays in the second quarter of 2025, covering up to 50% of system investment costs.

Croatia plans to allocate €25 million (\$25.7 million) for public sector solar plants and heat pumps, alongside a €10 million residential solar tender, as part of a €652 million renewable energy and decarbonization package. Croatia plans to launch two solar tenders in 2025, according to the.

The Croatian government is harnessing the power of solar energy, planning to allocate a noteworthy €25 million specifically for the development of solar plants and heat pumps across the public sector. This funding is indicative of Croatia's commitment to an eco-friendly future. Complementing this.

The Ministry of Economy and Sustainable Development in Croatia has issued a €60 million (US\$66 million) Call for Funds which seeks projects for renewables, energy efficiency and energy storage totalling 20MWh. The Ministry announced the Call this week (17 April) which will provide €100,000 - €2.

Croatia is set to allocate €25 million for solar plants and heat pumps in the public sector and will also issue a €10 million residential solar tender. This is part of a larger €652 million package aimed at renewable energy and decarbonisation. According to the country's indicative annual.

The Croatian government plans to disburse EUR 651.8 million (USD 675.1m) in grants to support green transition projects in 2025, including renewables and energy storage. Rooftop solar array. Featured Image: Ralf Gosch/Shutterstock.com The Balkan country's Ministry of Environmental Protection and.

Croatia plans to launch two solar tenders in 2025, according to the country's indicative annual publication plan for the year, which is now available on the Ministry of Environmental Protection and Green Transition's (MZOZT) website.

The plan includes a €10 million public call to install. Will Croatia launch a solar tender in 2025?

According to the country's indicative annual publication plan for 2025, published on 8 January, Croatia plans to launch two solar tenders. The first tender, with a budget of €10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs.

How much does a solar tender cost in Croatia?

The first tender, with a budget of €10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs. Additionally, the Croatian authorities will announce a €25 million call to co-finance solar plants and heat pumps for the public sector in the second quarter.

How much will Croatia spend on solar?

Croatia is set to allocate €25 million for solar plants and heat pumps in the public sector and will also issue a €10 million residential solar tender. This is part of a larger €652 million package aimed at renewable energy and decarbonisation.
