

# **Successful bid price of hybrid solar storage project in Germany 2026**

## Overview

---

Prices for the successful bids range from €0.0776/kWh to €0.0878 ct/kWh with an average price of €0.0833/kWh (US\$8.75ct/kWh). Both the average price and the maximum value ended up above the previously held solar farm auction in July.

Prices for the successful bids range from €0.0776/kWh to €0.0878 ct/kWh with an average price of €0.0833/kWh (US\$8.75ct/kWh). Both the average price and the maximum value ended up above the previously held solar farm auction in July.

Prices for the successful bids range from €0.0776/kWh to €0.0878 ct/kWh with an average price of €0.0833/kWh (US\$8.75ct/kWh). Both the average price and the maximum value ended up above the previously held solar farm auction in July. Numerous solar-plus-storage projects that won contracts in the.

The German Federal Network Agency (Bundesnetzagentur) said the tariffs ranged from €0.0500 (\$0.0590)/kWh to €0.0639/kWh, with an average price of €0.0615/kWh. Bavaria received the most awarded capacity, with 12 projects totaling 137 MW, while Saxony-Anhalt and Lower Saxony secured 124 MW and 49 MW.

The majority of winners (of a total 1,095 MW bid in this section) were combinations of solar PV and storage, which will receive between 1.94 and 5.52 eurocents per kilowatt-hour (ct/kWh) as a fixed premium on top of the wholesale market price. In the auctions, companies submit bids based on the.

The successful bids ranged between EUR 0.0674 per kWh and EUR 0.0745 per kWh, which is below the maximum value of EUR 0.0918 and the volume-weighted average price of EUR 0.0833 in the previous round. In regional terms, Bavaria showed the best performance in the auction with 25 selected projects.

The German government's infrastructure authority, Bundesnetzagentur has announced that 43 bids for solar and storage projects - with a combined

volume of 512MW- have been successful in its recent innovation auction. The prices of the successful bids ranged from 6.78 ct/kWh to 9.17 ct/kWh. The.

Germany's latest innovation tender for 583 MW of renewable energy projects was oversubscribed by 218%, with bids totaling 1,856 MW, according to data released by the federal network agency Bundesnetzagentur. Of the 154 bids submitted, 50 were awarded contracts for a combined 587 MW of solar plus. Is Germany's new solar-plus-storage innovation tender oversubscribed?

Image: Sungrow. The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest innovation tender. As has been the case in many of Germany's recent solar PV auctions, the innovation tender ended up oversubscribed, with 154 bids made for 1.8GW of capacity out of 583MW tendered capacity.

How much does a solar farm cost?

The contracts provide an additional premium in €/kWh to winning projects for energy discharged to the market. Prices for the successful bids range from €0.0776/kWh to €0.0878 ct/kWh with an average price of €0.0833/kWh (US\$8.75ct/kWh). Both the average price and the maximum value ended up above the previously held solar farm auction in July.

How much remuneration does a solar PV project get?

As has been the case in previous auctions, solar PV tenders (this time for 257 MW) were highly oversubscribed (163 bids with a total of 675 MW). The winning projects will receive between 4.8 and 5.39 ct/kWh. Unlike for the innovation projects, this remuneration is the maximum guaranteed payment from which the average wholesale price is deducted.

How many solar PV tenders were oversubscribed?

"In the innovation tenders, projects for hydrogen production, local heat production from renewable electricity or other regional flexibilities could be supported." As has been the case in previous auctions, solar PV tenders (this time for 257 MW) were highly oversubscribed (163 bids with a total of 675 MW).

Are Germany's solar & wind energy tenders undersubscribed?

The latest round of Germany's tenders for renewable installations has generated great interest in solar PV as well as combined solar and storage

installations, while onshore wind energy tenders were undersubscribed yet again.

How many bids did the Bundesnetzagentur oversubscribe?

The German Federal Network Agency, the Bundesnetzagentur, announced the results of its latest auction which ended up being oversubscribed with a total of 53 bids and 779MW of capacity received, nearly double the 400MW limit set for the auction.

## Successful bid price of hybrid solar storage project in Germany 2023

---

### Germany picks 1.57 GW of wind, solar, storage projects in recent

Successful bids ranged between EUR 0.0469/kWh and EUR 0.0518/kWh, while the volume-weighted average was EUR 0.0503/kWh. The innovation tender allowed hybrid ...

### [10 large solar projects in development for 2024](#)

FirmoGraphs is tracking more than 100 very large solar projects starting construction in 2023 with a total estimated value of nearly \$40 billion.

### Overcoming the Obstacles in the German Energy Storage Sector

Project Managers with experience in hybrid storage-renewable integration are essential to ensure smooth project timelines and secure funding. Energy Analysts with an in ...

### Germany: 400MW+ of solar-storage projects win Innovation Tender

The contracts provide an additional premium in EUR/kWh to winning projects for energy discharged to the market. Prices for the

successful bids range from EUR0.0776/kWh to ...

### [5 Ways Battery Storage Is Transforming Solar Energy ...](#)

Over 140 giant battery projects above 1 GWh each are already planned through 2026, dozens of which are multi-gigawatt-hour endeavors linked with renewable generation . This fast-growing marriage of solar and storage is ...

### **Germany wraps up renewables-plus-storage tender with average ...**

The final tariffs ranged from EUR0.077/kWh to EUR0.0878/kWh, with an average price of EUR0.08/kWh. Through these tenders, the Bundesnetzagentur mostly selects PV projects ...

### **Big-battery storage capacity could increase fivefold in ...**

German solar trade body BSW-Solar expects the capacity of large battery storage systems installed in Germany to increase fivefold by 2026. With 1.8 GWh of capacity installed to date, in systems

### [Germany picks 512MW solar-storage bids for ...](#)

The success of Germany's Innovation Tender in awarding 512MW of solar-plus-storage capacity underscores the country's commitment to renewable energy and innovation. By promoting projects that combine solar ...

### [A postcard from... Germany . Energy Storage Coalition](#)

The synergy between solar energy and battery storage optimises efficiency and mitigates grid imbalances caused by solar power injection. In Germany, where commercial curtailment during negative pricing is ...

### **Large-scale battery storage in Germany set to increase five-fold ...**

The number of large-scale battery storage projects in Germany will increase rapidly over the next two years, the country's solar industry association BSW said. Around ...

### [OYA Energy Hybrid Project Reaches Financial Close](#)

Engie's OYA Energy Hybrid Project successfully reaches financial close, advancing the integration of solar and wind energy in sustainable power production.

### [Germany awards 2.6GW in ground-mount PV auction](#)

Germany's so-called "innovation tenders" for solar-plus-storage projects and its rooftop solar tenders have also been oversubscribed. These results reflect strong demand for PV in the country.

### **How Afore's Energy Storage Inverter Transformed a Home in ...**

11 ????. Discover how Afore's AF6K-SLP hybrid energy storage inverter enabled an Italian home to achieve energy independence, lower bills, and boost sustainability.

### **Big-battery storage capacity could increase fivefold in ...**

In the next two years, large storage facilities with a capacity of around 7 GWh could be built in Germany. In view of the increase in photovoltaics, the expansion should be accelerated. In the association's opinion, legal ...

### [Germany Hybrid Solar Inverter Market Size, Updates, ...](#)

Answer: Germany Hybrid Solar Inverter Market size was valued at USD 1.4 Billion in 2024 and is projected to reach USD 2.6 Billion by 2033, growing at a CAGR of 8.1% from 2026 to 2033.

### **EU solar sees first dip in a decade, but several regions report growth**

Utility-scale stays strong In contrast, utility-scale solar remains strong, supported by improved auction design. In 2024, EU countries awarded a record 20GW, with Germany ...
