

Successful bid price of industrial energy storage project in Italy 2030

Overview

How much will Italy invest in utility-scale storage?

In support of these ambitious objectives, the Italian government recently received approval from the EU Commission for investment schemes aimed at developing at least 70 GWh of utility-scale storage—an initiative projected to attract over €17 billion in investments over the next decade.

How will Italy develop utility-scale electricity storage facilities?

To develop utility-scale electricity storage facilities, the Italian Government set up a scheme that was approved by the European Commission at the end of 2023. Italy will promote investments in utility scale electricity storage to reach at least 70 GWh, and worth over Euro 17 bn, in the next ten years.

How will Italy invest in electricity storage?

Italy will promote investments in utility scale electricity storage to reach at least 70 GWh, and worth over Euro 17 bn, in the next ten years. The new storage capacity will be acquired through tenders published by Terna, the manager of Italy's high voltage grid. The next tender will be released in 2024.

How much energy storage capacity does Italy have?

As of November 2024 Italy had 5.1 GW / 11.7 GWh of energy storage capacity. This is almost exclusively small-scale residential system, with utility-scale storage systems providing just 864 MW. To help achieve the target for utility-scale storage build-out, the Italian government has implemented the MACSE subsidy scheme as supporting legislation.

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having a capacity of less than 20 kWh.

Is Italy a leader in industrial energy storage and commercial energy storage?

Accordingly, there is a growing market for industrial energy storage and commercial energy storage projects, positioning Italy as a leader in advanced Italy storage solutions and renewable energy Italy initiatives.

Successful bid price of industrial energy storage project in Italy 203

EU approves Italy EUR17.7 billion state aid for energy ...

Italy's TSO Terna says it needs 9GW/71GWh of energy storage by integrate its renewables pipeline. Image: Terna. The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout ...

Italy: Regulator marks big week for grid-scale energy ...

Italy's TSO Terna is in the midst of reforming the electricity market to incorporate new energy storage resources onto the grid. Image: Terna. In a big week for the grid-scale energy storage market in Italy, regulators have ...

[Update on Italian BESS investment case & MACSE ...](#)

The Diagram illustrates how storage is particularly key in the Southern & Island regions which will soon face a critical flexibility deficit due to lack of storage and interconnection capacity.

[The role of battery storage in the energy market](#)

The choice of location determines the success of a project Every BESS project starts with a thorough market analysis. Particular attention should be paid to the selection of a suitable

location, as this is crucial to the success of a project. ...

Energy in Italy: Trends and opportunities , Herbert Smith Freehills

The energy sector continues to be a cornerstone of Italy's economic and environmental strategy, driving resilience and innovation amidst global market challenges. As ...

Innovative energy storage auction and renewables-friendly policy ...

London-based investor Bluefield says Italy's cautious, 'stop-start' approach to clean energy and energy storage procurement is less catastrophic than Spain's boom-bust ...

Italy needs 71GWh of new grid-scale energy storage by 2030

An operational PV plant in Italy. Image: NextEnergy Capital. A total of 71GWh of new grid-scale energy storage needs to be deployed in Italy by 2030 for it to decarbonise its ...

New report: European battery storage grows 15% in 2024, EU energy

On the other hand, commercial & industrial battery storage is set to grow slightly in 2025, as businesses tap into the energy security and cost effectiveness that solar and ...

Italy , HHWE

Italy's goal of 20 GW of wind energy by 2030 and its commitment to carbon neutrality by 2050 reflect its dedication to renewable energy growth. With new projects, investments, and ...

Storage auctions in Europe

For professionals working in the energy storage sector, 2023 has been for sure a year full of tenders and new support schemes dedicated to energy storage in many countries, ...
