

Successful bid price of mobile ESS unit project in France 2025

Overview

How much money could a 2-hour Bess make in France?

Discover how a 2-hour BESS in France could have earned €1.4 million annually under April 2025 price conditions. Learn what drove the price spike.

What is the Saleux Bess project?

The Saleux project is another step toward building a robust ecosystem that integrates renewable power without compromising grid reliability.” The Saleux BESS follows a string of recent European project wins for Envision Energy. In May 2024, the company secured the 300 MW/624 MWh Cellarhead project in the UK.

How much does Bess cost in China?

It is nonetheless still eye-opening to note just how big those differences in cost are. The average for a turnkey system in China including 1-hour, 2-hour and 4-hour duration BESS was just US\$101/kWh. In the US, the average was US\$236/kWh and in Europe US\$275/kWh, more than double China’s average cost.
