

Successful bid price of solar plus storage project in Australia 2026

Overview

The first CIS tender round in Australia successfully awarded 3.5GWh of co-located BESS as renewables-plus-storage projects.

The first CIS tender round in Australia successfully awarded 3.5GWh of co-located BESS as renewables-plus-storage projects.

The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage systems (BESS) as renewables-plus-storage projects. This was spread across 2.75GW of solar PV and 3.55GW of wind being successful in the tender round. Several of.

The successful projects of the first Capacity Investment Scheme (CIS) tender round in Australia have been revealed, with 2.75GW of solar PV being awarded, alongside 3.55GW of wind. In total, 19 projects have successfully completed the tender process, with the majority located in New South Wales and.

Allocation by state sees New South Wales (NSW) and Victoria both awarded seven bids, amounting to 3.7 GW plus 904 MWh of battery energy storage, and 1.6 GW plus 1,458 MWh of energy storage , respectively. Two projects in South Australia will generate 574 MW and three in Queensland amount to 550 MW.

The Capacity Investment Scheme (CIS) is a Commonwealth Government vehicle to underwrite new renewable energy and storage assets via Capacity Investment Scheme Agreements (CISAs). The CIS seeks to support delivery of 23 GW of generation and 9 GW of storage capacity by 2030. Given the potential scale.

On March 19, Pacific Green announced that the Limestone Coast North energy storage project has successfully reached Financial Close, with 100% of the shares sold to Intera Renewables (Intera) in a transaction valued at AUD 460 million. This achievement underscores the critical role of Trina.

Australia's Minister for Climate Change and Energy, Chris Bowen, has

announced plans to streamline the Capacity Investment Scheme (CIS) tender process to approximately six months. This announcement was made at the beginning of Australian Energy Week in Melbourne last week. Bowen explained that the. Are co-located battery energy storage systems a renewables-plus-storage project?

The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage systems (BESS) as renewables-plus-storage projects. This was spread across 2.75GW of solar PV and 3.55GW of wind being successful in the tender round. Several of these projects feature a co-located BESS.

Which solar projects have won a tender round in 2024?

The tender round opened in May 2024 and sought 6GW of renewable energy generation. In New South Wales, developers Elgin Energy and Lightsource bp succeeded with their respective solar PV projects. Elgin Energy saw a bid for its 60MW Glanmire solar-plus-storage project, featuring a 104MWh BESS, accepted.

Which solar-plus-storage projects have been successful?

The largest of these successful solar PV bids in the tender was Lightsource bp's 300MW West Mokoan solar-plus-storage project. Featuring a 560MWh BESS, the project will be separated across two sites with hopes it will be operated by Q4 2026. Victoria saw several successful solar-plus-storage projects alongside the West Mokoan project.

How many solar PV projects were successful in the first tender auction?

Of the 19 successful projects in the first tender auction, 11 featured solar PV. The tender round opened in May 2024 and sought 6GW of renewable energy generation. In New South Wales, developers Elgin Energy and Lightsource bp succeeded with their respective solar PV projects.

Which solar projects have been successful in Victoria?

In Victoria, developers European Energy Australia, Gentari, Risen, Lightsource bp and Elgin Energy all saw success with their respective projects. The largest of these successful solar PV bids in the tender was Lightsource bp's 300MW West Mokoan solar-plus-storage project.

Which solar farms have won ACS' bid?

Also in Queensland, ACS' bid is for the 250 MW Hopeland solar farm, and further single-bid wins went to European Energy Australia's 46 MW Mokoan solar farm; Gentari's 64 MW Barnawartha solar site, with 138.8 MWh BESS; and Risen, for the 205 MW Campbells Forest solar farm.

Successful bid price of solar plus storage project in Australia 2026

Solar projects forecast to drive \$5.4 billion construction boom to 2026

A Sydney-headquartered industry research and forecasting company Macromonitor report projects investment in the solar generation construction sector will expand ...

[1,200MWh solar-plus-storage project to be developed ...](#)

A 1,200MWh solar-plus-storage twin project is set to be developed in North Queensland, Australia, after success in the recent CIS tender.

Engie secures funds for 250-MW solar-plus-storage project in ...

Engie SA secures funds for 250-MW solar project in Victoria, Australia, aiming to power 105,000 homes by 2026. Construction set to begin soon.

[Solar & Storage Live Australia Brisbane 2026](#)

The "Solar & Storage Live Australia" serves as a premier international platform for knowledge exchange, networking, and business transactions in the field of sustainable energy solutions. The
