

Successful bid price of solar plus storage project in Dominican 2025

Overview

The Superintendency of Electricity (SIE) has launched the 2025 public bidding process for solar and wind energy projects with mandatory storage, adding 600 MW to the national electricity system.

The Superintendency of Electricity (SIE) has launched the 2025 public bidding process for solar and wind energy projects with mandatory storage, adding 600 MW to the national electricity system.

- The Superintendency of Electricity (SIE) approved Resolution SIE-092-2025-LCE, which sets the technical and regulatory basis for a new national public tender to add up to 600 megawatts (MW) of solar and wind generation capacity. Under the resolution, the awarded energy will be contracted.

The Dominican Republic has launched a tender for up to 600 MW of solar and wind capacity, requiring projects to include at least four hours of battery storage to support stability in the National Interconnected Electric System (SENI). From ESS News The Superintendency of Electricity (SIE) has.

Minister Joel Santos highlighted that 300 megabytes of storage are required by 2027.

During the “Energy Sector Reform” Forum organized by the Dominican Association of the Electric Industry (ADIE) and the Technological Institute of Santo Domingo (INTEC), Edward Veras, executive director of the National Energy Commission (CNE), emphasized the Dominican Republic’s progress in energy.

The Dominican Republic has launched its first tender for up to 600 MW of solar and wind capacity with mandatory storage, requiring all projects to include battery systems capable of at least four hours of backup. Winning projects, ranging from 20 MW to 300 MW, will sign long-term dollar-denominated.

Spanish renewables developer Ecoener has received a definitive concession from the Dominican Republic Government to build a 60MWp solar PV project

in the country. Located in the northern municipality of Nagua, the Payita 2 solar park will be paired with a 4-hour duration 15MW/60MWh battery energy.

Successful bid price of solar plus storage project in Dominican 2025

[Solar projects dominate in preferred bid rounds](#)
