

Successful bid price of solar storage inverter project in Chile 2026

Overview

With an investment of \$2 bn, the energy storage systems will commence operations in 2026 and will be the largest project in Latin America. The government of Chile has announced plans to introduce a bill this year aimed at procuring large-scale energy storage systems.

With an investment of \$2 bn, the energy storage systems will commence operations in 2026 and will be the largest project in Latin America. The government of Chile has announced plans to introduce a bill this year aimed at procuring large-scale energy storage systems.

Sonnedix, Opdenenergy and Canadian Solar were among the five successful bidders in Chile's latest power auction, which took place yesterday (7 September) and will see the country support 2GW of renewables and storage installations. Auctioning 2,310GWh per year to supply energy needs for a period of.

The government of Chile will launch a bill this year to procure large-scale energy storage systems for commissioning in 2026 totalling US\$2 billion of investment, on top of 5GWh already being sought for 2027-28. Speaking to the country's parliament last week, president Gabriel Boric said the new.

Canadian Solar has announced a groundbreaking solar energy initiative in Chile, featuring a substantial energy storage component. In partnership with Travesía Solar, a Chilean solar developer, Canadian Solar will supply an impressive 912 MWh energy storage system, seamlessly integrated with the 600.

The tender award documents for contracts beginning in 2026 reveal an average price of US\$24 per MWh. Several companies with foreign capital took part in the tender process, such as Mainstream Renewable Power, Sonnedix and Canadian Solar, demonstrating the importance of foreign investment in Chile's.

Greenergy launches a new reverse auction for solar energy and storage in Chile. Greenergy is tendering 1.7 TWh of renewable energy in Chile, focusing

on nighttime storage and solar supply for 2026-2027. Greenergy has launched a new reverse auction in the Chilean market to market 1.7 TWh of energy.

With an investment of \$2 bn, the energy storage systems will commence operations in 2026 and will be the largest project in Latin America. The government of Chile has announced plans to introduce a bill this year aimed at procuring large-scale energy storage systems. With an investment of \$2.
