

Successful bid price of wind solar storage project in Malaysia 2026

Overview

How many MW solar quotas will be available in 2026?

The Energy Transition and Water Transformation Ministry (Petra), through the Energy Commission (ST) has opened competitive bidding for 2,000 megawatts (MW) solar quota under the fifth round of the Large-Scale Solar (LSS) programme, to come online in 2026.

What will Malaysia's solar industry do in 2027?

This unprecedented rollout is expected to keep solar industry players actively engaged in engineering, procurement, construction, and commissioning (EPCC) activities well into 2027. According to analysts, the expansion aligns with Malaysia's broader energy transition strategy.

How many MW will a solar project have in 2027?

The tender will allocate 1,500 MW for ground-mounted solar projects, with individual capacities ranging between 30 MW and 500 MW. The remaining 500-MW quota is reserved for floating solar systems, with individual project sizes spanning 10 MW to 500 MW. Successful projects are expected to become operational in 2027.

How many megawatts will the EC bid in 2026 & 2027?

In a statement, the EC said the bids have already been reviewed for the projects totalling 2,000 megawatt (MW), which are slated for commercial operations in stages in 2026 and 2027. However, unlike past practices, the commission did not reveal the list of winners in the statement, nor the range of the winning bids.

Does solarvest deserve a premium valuation?

"Solarvest currently trades at 20 times 2025 earnings per share. "We believe Solarvest deserves a premium valuation due to its leading market share in the solar industry, with the largest order book among solar players," said the

research firm.

Are solar farms gaining traction amid declining battery storage prices?

Solar farms are again gaining traction amid declining battery storage prices, as solar panels touched another new low of US\$0.08/watt, compared with previous lows of US\$0.12/watt during the pandemic.
