Does Sunbank have a solar water heater?

I don't write reviews but I have to tell others about James from Sunbank! We got an 80 gallon solar water heater and installed it ourselves. It works very well in Southern California.

Why should you choose Sunbank solar?

Sunbank Solar made it all happen with ease. Great staff Thankyou · This is just what I wanted — The installation process was smooth and very well carried out by professional people. We have had no issues at all. · Horrible service — No customer call back for issues, App is no good doesn't work, Quick to take money but no customer service.

Which battery is best for home solar storage?

Here are the main ones: Lithium-Ion Batteries: Consider these the top-dogs of home solar storage. Efficient, lasting, and light, you may know popular ones like Tesla Powerwall or LG Home 8. Lead-Acid Batteries: A bit older and less efficient, but they're kind to your wallet. They might be heavier, but they suit off-grid setups perfectly.

Is a solar battery a good investment?

Yes! A solar battery provides backup power, reduces electricity costs, and allows energy independence, especially in areas with high energy rates or frequent outages. Most lithium-ion solar batteries, like the Tesla Powerwall 3

and LG Home 8, last 10-15 years with proper maintenance.

What should I do if I receive a letter from Sunbank solar?

If you receive a letter from Sunbank Solar quoting CSIRO and high feed in rates, throw it out and ignore these scammers. If you have already done business with them, request a partial refund and the battery to be uninstalled. Threaten to take them to Vcat or your state equivalent if necessary.
