

Sungrow solar battery price

Overview

\$\$\$ Price: Based on data from Solar Choice's network of solar installers, the average price for an installed Sungrow battery is \$1,110 per usable kWh. This places it in the higher-cost price category. What are Sungrow solar batteries?

Sungrow solar batteries, lithium iron phosphate batteries, can secure your energy storage at night for the high efficiency of up to 100% usable energy and 30A current.

How much does a Sungrow battery cost?

Scoring is based on our solar battery scorecard which is consistently applied to each brand and battery available on the Australian market. This scoring reflects Sungrow's SBH and SBR battery series. \$\$\$ Price: Based on data from Solar Choice's network of solar installers, the average price for an installed Sungrow battery is \$1,110 per usable kWh.

Are Sungrow batteries a good choice?

SUNGROW battery lithium batteries are preferable where the number of cycles is greater than 6,000. In addition, the strength of these batteries lies in the fact that you can use up to 90% of their capacity. The Sungrow lithium ion battery pack is the ideal solution to ensure your installation's proper functioning over the next 20 years.

Do Sungrow solar batteries come with a warranty?

Sungrow's currently available SBH and SBR series come with a 10 year product warranty which covers manufacturing defects. This is broadly the expectation of solar batteries in the Australian market. It should be noted that Sungrow's previous low voltage model (SBP4K8) only offered a 5-year product warranty.

Which Sungrow batteries are available in Australia?

Sungrow have adopted LFP across all the batteries they have launched in

Australia since 2018. Sungrow currently has 2 main battery models that are available in Australia – the SBH series and the SBR series. Lets find out the difference and what would best suit your needs. The SBR series features individual battery modules of 3.2 kWh (usable).

Who are Sungrow batteries?

Sungrow are a big name in the solar industry and have been around for a long time with a pretty good reputation. They battery solutions offer a cost-effective solution.
