

Tesla home solar battery cost

Overview

The Tesla Powerwall starts at \$11,500 for a single battery with a discount, though depending on where you live, prices can reach \$15,000 or more per unit. Additional Tesla Powerwalls cost less per unit as you add more batteries to your order. How much does a Tesla Powerwall battery cost?

Based on a secret-shopping quote we acquired on Tesla's website for a home near Austin, Texas, a single Tesla Powerwall 3 battery costs \$16,779. Installation costs vary depending on your installer, but our 2025 survey of 1,000 recent home solar customers revealed that the average price to install a Tesla Powerwall is \$7,466.

Why should you buy a Tesla home battery?

Tesla is known for its electric vehicles, but it also creates other renewable energy systems, including monocrystalline solar panels, solar inverters, and solar batteries. The Tesla home battery can help reduce your dependence on the traditional electricity grid and give you coverage for power outages.

How much does a home battery cost?

One of the most popular home battery options is the Tesla Powerwall, a sleek lithium-ion battery that holds 13.5 kilowatt-hours (kWh) of energy. The Tesla Powerwall 3 costs about \$15,400 before incentives and taxes are considered. At \$1,140 per kWh of storage, the Powerwall is one of the most affordable home battery solutions available.

What is a Tesla Powerwall solar battery?

A Tesla Powerwall solar battery, like any other solar energy storage system, can keep your essential systems online during grid outages, help maximize your net metering savings or even be your primary source of power if you have an off-grid setup. Considering Solar Panels?

.

Can you buy a PowerWall with a Tesla Solar System?

You can purchase a Powerwall in combination with a Tesla solar system or Tesla solar roof. You can buy a maximum of 10 Powerwalls per purchase, and the cost per unit decreases when you purchase more batteries. Most homes need only one or two batteries to meet their basic energy storage needs.

Is a Tesla battery right for You?

Although it is not a prerequisite to owning a home solar panel system, the Tesla battery may be right for you if: You have solar panels. Once your solar panels have generated enough energy to power your home, your solar battery allows you to store any extra electricity.
