

The international energy storage summit will start on the 22nd

Overview

From March 20 to 22, 2025, CESC will join hands with 1,000+ global energy storage leaders, 200+ industry veterans, 10,000+ professional visitors, and 70+ media to connect global energy storage companies and embark on a new journey for the industry!.

From March 20 to 22, 2025, CESC will join hands with 1,000+ global energy storage leaders, 200+ industry veterans, 10,000+ professional visitors, and 70+ media to connect global energy storage companies and embark on a new journey for the industry!.

On April 22nd, the CESC2024 China International Energy Storage Conference, hosted by the Jiangsu Energy Storage Industry Association, opened at the Nanjing International Expo Center. This conference, themed "Empowering Dual Carbon Energizing the Future," consists of a summit forum and multiple.

The Energy Storage International Summit and Exhibition was established in 2012, dedicated to building a pragmatic and efficient global energy storage cooperation network, exploring business models, connecting capital and markets, promoting the establishment of industrial mechanisms, and promoting.

The 13th International Energy Storage Summit and Exhibition is set to take place from April 10 to 12, 2025, at the newly constructed Phase II of the Beijing Shunyi New International Exhibition Center, which is Beijing's largest and most comprehensive exhibition venue integrating exhibit halls.

Developed in 2012 by the nation's leading energy storage industry organization, the China Energy Storage Alliance (CNESA), the 13th Energy Storage International Conference and Expo (ESIE) in 2025 is the largest, most professional, and international energy storage show in China, acclaimed as the.

2026 marks a defining moment not only for Europe's energy storage sector, but for the global energy transition as a whole. The Energy Storage Summit will spotlight the critical role storage plays in achieving net zero, while also

addressing the challenges and opportunities shaping markets.

From March 20 to 22, 2025, CESC will join hands with 1,000+ global energy storage leaders, 200+ industry veterans, 10,000+ professional visitors, and 70+ media to link global energy storage companies and start a new journey for the industry! As the first exhibition of the energy storage industry in. What is the Energy Storage Summit?

Please try again later. 2026 marks a defining moment not only for Europe's energy storage sector, but for the global energy transition as a whole. The Energy Storage Summit will spotlight the critical role storage plays in achieving net zero, while also addressing the challenges and opportunities shaping markets worldwide.

What is China International Energy Storage Conference?

The China International Energy Storage Conference is a platform focusing on industrial energy storage manufacturing. Here we showcased new technologies and were very happy to see many customers coming to our booth to communicate. In the future, we will participate in the exhibition with better solutions.

What is the energy storage exhibition & docking platform?

It is one of the most influential industry exchange and docking platforms in the global energy storage field, and is known as a high-standard exhibition with high gold content and strong guidance in the energy storage industry. It is a weathervane for the development of China's energy storage industry.

What are the main activities of the Xiaomi Industrial Conference & Exhibition & Competition?

Besides Conference, Exhibition and Competition, there are various activities such as networking events, over 40 parallel forums held at the same time in 7 themed halls, offering a more open, more professional and international platform for industrial education and strong connection between buyers and suppliers globally.

How many GW of storage is installed in Europe last year?

Across continental Europe, 11.9 GW of storage was installed last year across all technologies — the first time grid-scale deployments outpaced behind-the-meter solutions. This rapid growth, driven by new route-to-market options in

both contracted and merchant revenues, reflects trends seen in markets far beyond Europe.
