

# **Total investment cost of VRFB energy storage project in Spain**

## Overview

---

Pending approval, a total of €167.6 million (\$187.1 million) has been allocated toward 46 standalone thermal and electrical energy storage projects, with a cost range from €170/kWh to €409/kWh. From ESS News.

Pending approval, a total of €167.6 million (\$187.1 million) has been allocated toward 46 standalone thermal and electrical energy storage projects, with a cost range from €170/kWh to €409/kWh. From ESS News.

Pending approval, a total of €167.6 million (\$187.1 million) has been allocated toward 46 standalone thermal and electrical energy storage projects, with a cost range from €170/kWh to €409/kWh. From ESS News Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO) has.

Portugal-based utility EDP has received clearance to deploy a 1MWh vanadium flow battery system as part of a hybrid energy storage project at the site of a retiring thermal plant in Asturias, Spain. EDP España was granted the authorisation to deploy the vanadium redox flow battery (VRFB) system at.

Spanish storage capacity from the current 8.3 GW, to 20 GW in 2030 and 30 GW in 2050. The PNIEC scenario for the hourly pool price projection calculation for the 2024 - 2043 horizon has been carried out by the Advisor based on PNIEC objectives using the software xPryce®. The obtained results are.

Our Member Largo has deployed a 6.1 MWh Vanadium Redox Flow Battery for Enel Green Power España, located in Mallorca, Spain. Largo Clean Energy (LCE) entered into its first VCHARGE VRFB system sales contract with Enel Green Power España. Under the contract, LCE is obligated to deliver a 6.1 MWh.

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems. The goal is to improve how Spain uses renewable energy.

Portugal-based utility EDP has received clearance to deploy a 1MWh vanadium

flow battery system as part of a hybrid energy storage project at the site of a retiring thermal plant in Asturias, Spain. EDP España was granted the authorisation to deploy the vanadium redox flow battery (VRFB) system at. What is a 5MWh VRFB?

A 5MWh VRFB sits at the Energy Superhub project in Oxford, UK, supplied by Invinity Energy Systems for project owner EDF. The Superhub is also notable in that it features both VRFB and lithium-ion (Li-ion) battery technologies at the same site, designed as a 'hybrid' for each to perform different, complementary applications.

Who is behind the VRFB project?

The VRFB was provided by Largo Clean Energy, the recently established downstream arm of primary vanadium producer Largo Resources. Enel Green Power posted some pictures of the project to X (formerly Twitter) on 18 March with the comment that the plant "paves the way for a sustainable, fossil-free future."

Where is a VRFB battery installed?

The 1.1MW/5.5MWh flow battery has been installed at Enel Green Power Espana's 3.34MWp Son Orlandis solar PV plant in the Mallorcan municipality of Palma. The VRFB was provided by Largo Clean Energy, the recently established downstream arm of primary vanadium producer Largo Resources.

What does VRFB stand for?

EDP España was granted the authorisation to deploy the vanadium redox flow battery (VRFB) system at the 1.2GW Soto de Ribera coal and gas plant on January 25, 2023, by the government of Asturias, one of Spain's autonomous communities.

How much money does ESS invest in a project?

The total investment is estimated at €786 million, with an average subsidy covering 21.32% of a project's cost. To keep reading, please visit our ESS News website. Does Largo have a joint venture with stryten energy?

Largo Resources said this week that it has signed a letter of intent to form a joint venture (JV) with US-headquartered energy storage solutions provider Stryten Energy, combining Largo's access to raw materials and electrolyte production capabilities with Stryten's manufacturing and design.

## Total investment cost of VRFB energy storage project in Spain
