

# **Total investment cost of solar plus storage project in Portugal**

## Overview

---

The renewables arm of Italian energy group Enel SpA (BIT:ENEL) estimates it will invest around EUR 90 million (USD 106.3m) to build what will be the group's first renewable-plus-storage project in the Iberian peninsula.

The renewables arm of Italian energy group Enel SpA (BIT:ENEL) estimates it will invest around EUR 90 million (USD 106.3m) to build what will be the group's first renewable-plus-storage project in the Iberian peninsula.

Enel Green Power announced on Thursday it has been awarded a 99-MW solar-plus-storage project in Portugal's latest auction. The renewables arm of Italian energy group Enel SpA (BIT:ENEL) estimates it will invest around EUR 90 million (USD 106.3m) to build what will be the group's first.

The Portuguese Ministry of Energy has allocated €100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On.

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to.

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million.

The country's Ministry of Environment and Energy has launched a competition for €99.75 million (US\$107 million) for grid-scale energy storage projects at the transmission and distributed-scale. The government said that competition has been launched in light of the the need to optimise and manage.

“Following the preliminary hearing completed in January, the final results have

now been revealed, with support granted to 41 projects totaling 99.75 million euros,” it added. The initial results of the tender, which is part of the Recovery and Resilience Plan (PRR) and received 79 applications. How much will Portugal spend on energy storage projects in 2025?

Portugal’s Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country’s Recovery and Resilience Plan (RRP).

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country’s Ministry of Energy announced on Wednesday that it has allocated €99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

Are companies willing to pay for solar-plus-storage in Portugal?

So companies, especially companies not yet present in Portugal, have a high willingness to pay for that access,” he said. The auction was the first of its kind in Portugal that invited companies to lodge bids with a storage component included, with eight of the 12 batches awarded to solar-plus-storage projects.

What does Portugal's energy policy mean for the energy sector?

The Portuguese Ministry of Energy has allocated €100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production.
