

Turnkey domestic energy storage EPC contract price in Malaysia

Overview

The average price of EPC for energy storage projects generally falls within the range of \$1,000 to \$3,000 per installed kilowatt; this cost can fluctuate based on various factors such as project scale, technology employed, site conditions, and location-specific economic considerations. Can a foreign company provide a turnkey project in Malaysia?

As turnkey projects are neither expressly mentioned nor implied in any of the exceptions, the foreign company that intends to provide EPC works should register with the Companies Commission of Malaysia as a Registered Foreign Branch Office or establish a subsidiary Company Limited.

What is the tax regime for EPC contracts in Malaysia?

There is no specific tax regime for EPC contracts in Malaysia. Income Tax would be the most important tax for consideration, followed by Sales and Services Tax (depending on the type and extent of the supply of goods/services). Withholding Tax should also be considered.

What is Energy Performance Contract (EPC)?

Energy Performance Contract (EPC) is a mechanism that uses market-based capital and technology to improve energy efficiency in buildings, industry, and other areas. There is a large room for development in the Energy Performance Contract market in Malaysia.
