

Vic solar battery rebate eligibility

Overview

Eligibility requires being an owner-occupier, having a household income under \$210,000, and installing a 5kW+ solar system (or already having one). Battery systems must be 6kWh or more and listed on Solar Victoria's approved product list, with grid connection pre-approval.

Eligibility requires being an owner-occupier, having a household income under \$210,000, and installing a 5kW+ solar system (or already having one). Battery systems must be 6kWh or more and listed on Solar Victoria's approved product list, with grid connection pre-approval.

Solar panel rebates plus the option of an interest-free loan are available for eligible Victorian homes. We provide a rebate of up to \$1,400 for the installation of solar panel (PV) systems. To Victorians with existing homes or homes under construction. There are also solar rebates for rental.

It offers an upfront rebate worth about \$330 for every kilowatt-hour of usable battery capacity, around 30% of the total system cost. So, if you're installing a 10 kWh battery, you could receive roughly \$3,300 off the price. The rebate applies to systems sized between 5 kWh and 100 kWh, making it.

Victoria solar rebates in 2025 make installing solar panels and batteries more affordable, helping residents cut electricity bills and promote a greener future. This guide will walk you through everything you need to know about Victoria's solar rebates, eligibility requirements, application.

The solar panel (PV) rebate helps Victorian households and rental providers to install solar PV systems. Solar panel rebates of up to \$1,400 are available for eligible Victorians with existing homes, homes under construction and rental properties, with the option to apply for an interest-free loan.

This complete guide will show you all the solar panel rebate and incentives available in Victoria in 2025, whether you're an eco-conscious homeowner, a landlord, or an investor. You can use these incentives to lower your energy costs and help create a more sustainable future. As we move into 2025.

While the state's solar battery rebate (a direct cash rebate) has ended, it has been replaced with a generous interest-free loan to reduce your upfront costs. Eligible Victorian homeowners can access interest-free loans of up to \$8,800 for installing a home battery system, with the loan repaid over. Are there solar battery rebates in Victoria?

No active solar battery rebates in Victoria—but interest-free loans of up to \$8,800 are still available through Solar Victoria. Eligibility requires being an owner-occupier, having a household income under \$210,000, and installing a 5kW+ solar system (or already having one).

What is a Victorian solar panel rebate?

The solar panel (PV) rebate helps Victorian households and rental providers to install solar PV systems. Solar panel rebates of up to \$1,400 are available for eligible Victorians with existing homes, homes under construction and rental properties, with the option to apply for an interest-free loan for an amount equivalent to their rebate.

Who is eligible for a solar battery rebate?

Here's a clear breakdown of VIC solar battery rebate eligibility for the Cheaper Home Batteries Program: Homeowners, Businesses & Community Groups: Anyone who owns a home, runs a small business, or manages a community facility can apply.

Does Victorian Government offer solar rebates & interest-free loans?

Originally, the Victorian Government offered both rebates and interest-free loans under its \$1.3 billion Solar Homes Program. The battery loan component, which provided up to \$8,800 interest-free, helped thousands of homeowners store solar power for use after sunset or during outages.

Can I get a solar panel rebate and a battery loan?

Offered in conjunction with Solar Victoria's solar panel (PV) program – you can even apply for a solar panel rebate and a battery loan at the same time if installing both systems together.
