

Vizn energy storage

Overview

What makes vizn energy systems unique?

The company's core technology, chemistry, and robust packaging is the result of more than 8 years of engineering and R&D into the most promising energy storage technology available. ViZn Energy Systems was founded in 2009 and is headquartered in Columbia Falls, Montana, United States.

Is ViZn Energy safe?

ViZn Energy systems run on a safe chemistry that is non-toxic, non-flammable, and non-explosive. The electrolytes used in the ViZn system are food grade and found in abundance at commodity prices. Counter to nearly every commercially available energy storage solution, ViZn Energy has this safe feature. ViZn Energy has 5 employees across 2 locations and \$63.89 m in total funding.

Who is VZN energy systems?

more Founded in 2009, ViZn Energy Systems is comprised of a dedicated and passionate team of scientists, engineers, and business leaders who have been working for more than 8 years to commercialize a revolutionary energy storage solution for use wherever economical and safe energy storage can add value.

When did vizn energy systems close?

ViZn Energy Systems closed its last funding round on Jun 19, 2018 from a Private Equity round. Who are ViZn Energy Systems's competitors?

Alternatives and possible competitors to ViZn Energy Systems may include GMR Group, 24M Technologies, and Natron Energy.
